Demo Narration Script — Migui's parts

Read each line while its screen shows. The time is where the line starts in the video (minutes:seconds). The video holds still on each screen long enough for its line at a calm pace; if you need longer, pause or slow that clip in your editor. Each video also has a matching .srt file with the same lines, usable as a teleprompter track.

2d Monitoring Sheet (1:53)

Video: 2d-Monitoring-Sheet.mp4

Time	On screen	Say
0:01	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
0:06	Open Monitoring Sheet, choose MSN	The Monitoring Sheet, under Records: one row per student, one column per subject. Colours show completed, enrolled, or not yet taken.
0:14	Open Add student	Graduate School staff adds a student missing from the imported sheet. The window warns: manual entry, recorded with the staff member's name and time.
0:26	Fill and submit the new student	Student ID, name and year of entry. The same required fields and duplicate checks as an import apply.
0:33	Fill and submit the new student	The student is added, with a Student Portal login.
0:38	Add subjects now: the record panel	The record panel lists all eighteen subjects, none taken yet, with units counted automatically.
0:45	Add subject row MSN-FED	Graduate School staff adds a subject: status Completed, the term, and a remark.
0:54	Two manual rows with provenance	Both rows say Manual entry in the Source column, so manual data is never mistaken for imported data.
1:04	Edit the remarks of MSN-FED	A remark is corrected with a simple edit.
1:10	Remove the MSN-MOR row with a reason	Removing a row needs a reason. The row returns to not taken and stays in the history.
1:20	Change history tab	The Change history tab shows every add, change and removal: old value, new value, who, when, source and reason. That is the audit trail.
1:31	New student appears in the grid, marked Manual	Back on the grid, the new student carries a Manual tag, and hand-entered cells show an orange dot.
1:39	Imported student: provenance and reason required to change an imported value	Now an imported student. Every row says Imported: official workbook values.
1:44	Imported student: provenance and reason required to change an imported value	Changing an imported value requires a reason, recorded with the staff member's name. Grades are never entered here: AIMS is the official source.

2h 1 Leave of Absence (2:18)

Video: 2h-1-Leave-of-Absence.mp4

Time	On screen	Say
0:01	Signed in as Student (loa.daniel@usls.edu.ph)	Daniel, a Master of Arts in Education student, signs in.
0:06	Student opens Leave of Absence	Under Requests, Leave of Absence. The form shows the limits: two semesters at a time.
0:13	Student reads the rules panel	Rules applied on this screen lists each rule with its Handbook page.
0:22	Student fills the form	Daniel picks the dates, a reason, and a short explanation.
0:26	Student sends the request	A summary to check before sending.
0:29	Student sends the request	Submitted. The request waits for Graduate School staff.
0:33	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.

0:37	Staff opens the Leave of Absence board and finds Daniel	The Leave of Absence board: stages are columns, requests are cards.
0:43	Staff drags the card to In staff review	Graduate School staff drags the card to In staff review. The server checks every move.
0:55	Staff opens the request and reads the policy check	The policy check advises with Pass or Needs review. It never decides. The Dean does.
1:05	Staff forwards to the Dean	Graduate School staff forwards the request to the Dean.
1:11	Staff forwards to the Dean	The card moves to With the Dean and locks for staff.
1:15	Signed in as Dean (dean@usls.edu.ph)	The Dean signs in.
1:26	Dean drags the card to Leave scheduled and approves	The Dean drags the card to Leave scheduled.
1:31	Dean drags the card to Leave scheduled and approves	Approved, flagged for the Registrar. The Dean could also deny it.
1:36	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
1:45	Staff drags the card to On leave and starts the leave	For the demo, Graduate School staff starts the leave by hand.
1:51	Staff drags the card to On leave and starts the leave	Daniel is on leave, and enrollment is closed.
1:55	Staff sees the Registrar list	The Registrar list. The portal sends no e-mail: staff sends it officially.
2:05	Staff marks the list as sent	Graduate School staff marks the list sent to the Registrar.
2:10	Signed in as Student (loa.daniel@usls.edu.ph)	Daniel signs in again.
2:15	Student sees the leave	The student's page shows the status On leave.

2h 2 Readmission (2:10)

Video: 2h-2-Readmission.mp4

Time	On screen	Say
0:01	Signed in as Student (readmission.therese@usls.edu.ph)	Therese, a student on approved leave, signs in to come back.
0:06	Student opens Readmission	The Readmission page: enrollment stays closed until readmission is approved. The leave being ended is pre-filled.
0:13	Student reads the rules panel	The rule: a returning student writes an intent to enroll, Handbook page fifty-three.
0:22	Student fills the request and ticks the four items	Therese picks the return semester, gives a reason, and confirms the four checklist items.
0:30	Student sends the request	Submitted, to Graduate School staff and then the Dean.
0:34	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
0:39	Staff opens the Readmission board and finds Therese	The Readmission board has the same layout with its own columns. Therese's card is in Submitted.
0:49	Staff opens the request, reads the checklist and the policy check	The request shows the return semester, the intention, and the linked leave.
0:54	Staff opens the request, reads the checklist and the policy check	The checklist shows what the student ticked, not yet verified, and the leave history.
1:00	Staff opens the request, reads the checklist and the policy check	The policy check flags an early return. Only the Dean can allow that, so it shows Needs review.
1:11	Staff verifies the checklist and forwards to the Dean	Forwarding, Graduate School staff ticks the items verified. Anything unticked reaches the Dean as Needs review.
1:21	Signed in as Dean (dean@usls.edu.ph)	The Dean signs in to decide.
1:31	Dean drags the card to Approved and approves	The Dean approves the return, with a note.
1:36	Dean drags the card to Approved and approves	Therese is active again. Readmission restores standing but does not

		enroll subjects. The Academic Coordinator does that next.
1:44	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
1:50	Staff sees the approved request and the Registrar list	The staff board now shows the Academic Coordinator as next owner, flagged for the Registrar.
1:57	Staff sees the approved request and the Registrar list	The same Registrar list: download, send, mark sent, then acknowledged.
2:01	Signed in as Student (readmission.therese@usls.edu.ph)	Therese signs back in.
2:07	Student sees the result	Therese sees the approval, with messages from staff and the Dean.

2h 3 AWOL and Return from AWOL (2:18)

Video: 2h-3-AWOL-and-Return-from-AWOL.mp4

Time	On screen	Say
0:01	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
0:04	Staff opens AWOL & Residency and finds Maya (flagged by the system)	The AWOL and Residency board flags cases from imported enrollment records. Nobody types AWOL.
0:11	Staff opens AWOL & Residency and finds Maya (flagged by the system)	Maya Torres's card sits in AWOL, Waiting for: Student. Staff cannot move it; only the student can start a return.
0:20	Staff reads the rules panel	Residence limits apply: master's, five years normal and seven absolute; doctorate, seven and nine. Leave time counts.
0:28	Staff opens Maya's AWOL card	The card shows the AWOL date, the flag's source and the last enrolled semester.
0:35	Signed in as Student (awol.maya@usls.edu.ph)	Maya signs in.
0:38	Student opens Return from AWOL	The Return from AWOL page shows the flag. Registration stays restricted until review.
0:46	Student fills and sends the return declaration	Maya picks the return semester and last enrolled semester, and writes the reason.
0:54	Student fills and sends the return declaration	Submitted. The system checks that Maya is within the maximum residence.
0:58	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
1:04	Staff opens Maya's submitted return case	On the staff board, the card moves itself to Return review.
1:09	Staff opens Maya's submitted return case	The request shows the intention and the residence limits.
1:18	Staff drags the card to With the Dean and forwards	Graduate School staff forwards it to the Dean with a note.
1:25	Signed in as Dean (dean@usls.edu.ph)	The Dean signs in.
1:36	Dean drags the card to Back in the program and approves	The Dean drags the card to Back in the program. Approval restores standing.
1:43	Dean drags the card to Back in the program and approves	Maya is active.
1:45	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
1:52	Staff sees the outcome and the Registrar list	The Academic Coordinator is next owner, since enrollment is a separate step.
2:00	Staff sees the outcome and the Registrar list	The Registrar list holds one report per approved return, downloaded and sent officially.
2:06	Signed in as Student (awol.maya@usls.edu.ph)	Maya signs in.
2:11	Student sees the outcome	Maya sees the approval. Leave, return and AWOL all run on the same board, request window and Registrar list.

2l Reports Analytics (1:50)

Video: 2l-Reports-Analytics.mp4

Time	On screen	Say
0:02	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
0:09	Open Reports & Analytics	Reports and Analytics, under Overview. Filters on top: program, entry cohort and period. Below, the six numbers the office asks about most.
0:18	Read the six numbers	Behind schedule: the share of active students who are behind, against a target.
0:23	Read the six numbers	Median days to decide, against the twelve months before. Every number is computed from recorded events.
0:30	Needs attention: the causes, the students behind a bar, the list	Needs attention. Each bar is a cause; the longest affects the most students.
0:36	Needs attention: the causes, the students behind a bar, the list	Selecting a cause narrows the list to the students affected.
0:41	Needs attention: the causes, the students behind a bar, the list	Show all causes restores the list, most delayed first, with the office that can move each student on. Download it as Excel or PDF.
0:51	Where students get stuck	Where students get stuck counts students per stage as on time, slow or stuck.
0:57	Where students get stuck	Every count is a button that opens the real students behind it.
1:04	Office speed	Office speed: which offices take longest to close requests. The longest red bar marks the office to ask first.
1:13	Records to fix	Records to fix lists research students with missing records, such as no adviser. A fixed record drops off.
1:21	Report: Cohorts by stage	Cohorts by stage.
1:23	Report: Graduation candidates	Graduation candidates: who can graduate and what is missing.
1:28	Report: Overdue and pending	Overdue and pending: each waiting task, longest first.
1:32	Report: Defenses	Defenses held and upcoming, with panel and verdict.
1:37	Registrar changes	Registrar changes: the daily list the Registrar must apply in AIMS.
1:44	Filter by program: every number follows	Every filter covers the whole page. One program picked, and all the numbers follow.

2m Best Features (2:12)

Video: 2m-Best-Features.mp4

Time	On screen	Say
0:01	Signed in as Graduate School Staff (staff@usls.edu.ph)	Graduate School staff signs in.
0:05	1 Business Rules: every rule with its page and a label	First, rules with a source. Every rule the workflows follow sits in one register, with its Handbook or Protocol page and a label: enforced, only documented, or needs review.
0:17	1 Business Rules: every rule with its page and a label	Searching a topic lists the matching rules, each with its page.
0:27	2 Policy Assistant: question, cited answer, the exact passage	Second, the Policy Assistant answers only from the Graduate School's own documents. Ask one question, and the answer names its source.
0:36	2 Policy Assistant: question, cited answer, the exact passage	This site runs without the Gemini key, so this is the offline answer. The source opens to the exact passage.
0:48	3 Panel Matching: ranked candidates and how the score was built	Third, panel matching that explains itself. Each faculty member gets a score out of one hundred.
0:55	3 Panel Matching: ranked candidates and how the score was built	The breakdown is on screen: expertise, availability and workload, with the passage that matched. A person still chooses the panel.
1:10	4 Defense Scheduling: best shared options, hard stop versus warning	Fourth, scheduling that checks before booking. It reads availability and suggests the best shared times.

1:22	4 Defense Scheduling: best shared options, hard stop versus warning	Hard stops, such as a double-booked panelist or room, cannot be overridden. Warnings, such as the lead time, need a recorded reason.
1:33	5 a staged board: stages as columns, requests as cards	Fifth, shared boards. Leave, readmission, AWOL, withdrawal, practicum and graduation run on the same staged boards, and every move is recorded.
1:47	5 Reports and Analytics computed from the records	Reports and Analytics are computed from those records, not typed in.
1:51	5 Reports and Analytics computed from the records	Each feature takes data the Graduate School already has, plus the governing policy, and turns it into a decision, a warning or a measurement.
2:02	5 Reports and Analytics computed from the records	The honest limits: the portal sends no e-mail, Google Calendar is optional, official data comes only from AIMS, and rules marked Needs review wait for validation. Thank you.
