GRADUATE SCHOOL FORMS APPROVAL SHEET

Approval of the official forms and policy documents of the Graduate School

Form code	GS-P-01	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The documents listed below are the official forms and policy documents of the Graduate School for the lifecycle of a graduate student. They are grouped by the chapter of the Graduate School Operations Manual they belong to (Manual column); Appendix A of the Operations Manual lists the same documents. Platform Basis and Supplementary Forms come last.
2. Forms for the research process keep the form number of the Research Protocol AY 2024-2025, shown in the title line of each form. Every document carries its own control fields: code, revision number and effectivity date.
3. For each document, mark Approved, or write the change required in Remarks. The signatures below approve the documents at the revision shown (Revision 00) and fix the effectivity date.

FORMS ROUTING GUIDE

Who files, who reviews, who decides and where each form goes next

Form code	GS-P-02	Revision no.	00	Effectivity date	

Read across a row to follow a form. The Manual column gives the chapter of the Graduate School Operations Manual that holds the rule. The last column names the step of the Graduate Student Lifecycle Monitoring system that records the same event, so the paper form and the system always show the same facts; a dash means the event is kept on paper only. Where the Handbook or the Research Protocol states a rule, it is cited on the form itself.

ONBOARDING REPORT FOR THE DEAN

Admission handoff and onboarding | Operations Manual 4.1

Form code	GS-F-01	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Prepared by the Graduate School Staff for each batch of newly admitted students received from the Registrar (AIMS export) or the Academic Coordinator's monitoring workbook. One report covers one batch.
2. The Graduate School does not create student numbers or institutional emails; they are received from the University Registrar. Admission requirements are checked by the Admissions office (Handbook 2022-2023, pp. 42-47) and are not re-assessed here.
3. Every item that is not complete is listed in Part C with the person who will follow it up. The Dean accepts the report only when no item is left open, or records which items remain open.

A. Batch information

Program	Academic year / term of entry
Source file / workbook name	Date received
Number of students in the batch	Number of new students
Prepared by (Graduate School Staff)	Date prepared

B. Onboarding checklist

Tick each item that has been checked for every student in the batch.

☐ Admission handoff recorded (admission approval received)
☐ Student profile sheet received for each student
☐ Student profiles created from the import
☐ Program assignment confirmed with the Academic Coordinator
☐ Enrollment signal received (enrolled in the registration system)
☐ Official transcript of records received
☐ Validation issues in the import resolved
☐ Curriculum version tagged for each student

C. Items needing follow-up

Student no.	Student name	Missing / unresolved item	Assigned to	Date resolved

D. Dean's decision

☐ Onboarding report accepted; admission is complete for this batch
☐ Returned to the Graduate School for the items marked above

TERM COURSE OFFERING PLAN

Course offering | Operations Manual 4.3 | Handbook pp. 48, 51

Form code	GS-F-04	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Prepared by the Academic Coordinator for each program and term during the term break, before enrollment. A subject counts as needed when at least one student needs it; a need is not yet an offering.
2. An undersized class is treated as a special class and is requested by the Academic Coordinator through the Dean, addressed to the Vice Chancellor for Academic Affairs (Handbook p. 48). A full refund is made for any course discontinued by the school (Handbook p. 51).
3. The Dean approves the plan before it is published to students and the Business Office.

APPLICATION FOR WITHDRAWAL OF SUBJECT

Withdrawal of subject | Operations Manual 4.4 | Handbook pp. 49-51, 53

Form code	GS-F-05	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student may withdraw subjects until the second week from the start of classes, whether or not classes have been attended. Charges: ten percent (10%) of the total amount due for the term in the first week of classes and twenty percent (20%) in the second week (Handbook pp. 49, 51).
2. After the second week a student keeps the right to withdraw all subjects but pays the full enrollment fees for the semester; if the reason is justifiable, fees are charged only up to and including the last month of attendance (Handbook pp. 49, 51). A student who withdraws after the second week may instead file a leave of absence (GS-F-07) (Handbook p. 53).
3. This form is the written request to the Dean and, once approved, the Withdrawal Form. Fees are assessed by the Business Office. Copies: Registrar, Accounting Office and the student (Handbook p. 49).

INSTRUCTIONS

1. Attendance is counted from the first regular class meeting. The maximum number of absences allowed is 20% of the total class hours of the semester. When unexcused absence is more than 20% of the stipulated hours in one course, the student is automatically dropped from the course by the professor and given the grade DRP with a 5.0 (Handbook p. 52).
2. Excused absences are a death in the family, illness (with a medical certificate from the USLS clinic or a personal doctor) and a graduate program activity endorsed by the Dean. A student who takes part in a school-sponsored activity or represents the University in an official capacity is granted an Approved Absence on the Dean's approval; it is not counted against the allowed absences (Handbook p. 52).
3. A student who wishes to leave a subject within the first two weeks files GS-F-05. A drop for another documented ground is arranged between the student and the Academic Coordinator. The Graduate School records the drop in AIMS and in its own record.

APPLICATION FOR LEAVE OF ABSENCE

Leave of absence (new and extension) | Operations Manual 4.6 | Handbook pp. 48, 52-53, 55

Form code	GS-F-07	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student who does not intend to enroll in a semester may apply for a leave of absence; the student remains tied to the University. The request is made in writing to the Dean, states the reason and specifies the period. A leave may be approved for one (1) year and renewed for at most another year. It must be filed on or before the deadline (Handbook p. 52).
2. No leave is granted within the two (2) weeks before the last day of classes. A student on leave in the second half of the semester has the class standing W (withdrawn) and no refund of tuition and fees (Handbook p. 53). A student who withdraws after two weeks of classes may file a leave and is subject to a withdrawal fee from the Cashier's office (Handbook p. 53).
3. The leave counts in the maximum residence: seven (7) academic years for a master's program and nine (9) for a doctoral program, including leave (Handbook p. 55). A student with remaining units who will not enroll must file a leave and may not enroll in residency (Handbook p. 48). Leaving without a leave is absence without leave (AWOL).

A. Student information

Student name	Student number	
Program	Track / major	AY of entry
Institutional email	Mobile number	Year level
Date admitted to the program	Date of this application	

B. Application

This application is for:

☐ A new leave of absence

☐ An extension of the leave granted for _____ (renewal, at most another year)

C. Period requested

From (academic year / semester)	To (academic year / semester)
Number of semesters	Last day of classes of the current term
Expected return (semester)	Classes already attended this term?

D. Reason

Reason for the leave:

☐ Medical / health

☐ Family emergency

☐ Financial difficulty

☐ Employment / professional obligation

☐ Other documented circumstance

Explain the reason in your own words and list the documents attached (for example a medical certificate):

E. Earlier leaves of absence

APPLICATION FOR READMISSION (RETURN FROM LEAVE OR AWOL)

Return from leave of absence and readmission | Operations Manual 4.7 | Handbook pp. 45, 53-55

Form code	GS-F-08	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student returning from a leave of absence or from absence without leave declares the intention to enroll by writing to the University Registrar through the Graduate School Dean, who endorses it to the Registrar (Handbook p. 53). The declaration of intention below is that written declaration.
2. A returnee presents: (1) clearance from the Business Office, (2) an interview on the reason for delay and the residency requirements, (3) an evaluation of subject and grade requirements, and (4) an Advice Slip from the Dean (Handbook p. 45).
3. Failure in any subject means no readmission to the program (Handbook p. 54). Maximum residence is seven (7) years for a master's and nine (9) for a doctorate, including leave; beyond that all courses taken must be re-enrolled (Handbook p. 55).

A. Student information

Student name	Student number	
Program	Track / major	AY of entry
Institutional email	Mobile number	Year level

B. Return from

☐ Approved leave of absence (period: _____)

☐ Absence without leave (last term enrolled: _____)

C. Return

Semester of return (target term)	Date of this application

D. Declaration of intention to enroll

To the University Registrar, through the Graduate School Dean: I declare my intention to enroll in the term stated above. I have been away from the program for the reasons written below, and I will comply with the requirements of readmission.

Reason for the absence and plans to complete the program:

E. Requirements of readmission (Handbook p. 45)

Verified by the Graduate School:

☐ Clearance from the Business Office

☐ Interview done (reason for delay, residency requirements)

☐ Evaluation of subject and grade requirements; no failed subject (Handbook p. 54)

☐ Advice Slip issued by the Dean

Further checks recorded by the Graduate School (not requirements stated in the Handbook):

☐ Updated study plan confirmed

☐ Consultation with the program or Research Adviser done

☐ No pending accountability

F. Residence standing (Academic Coordinator)

Years in the program	Normal limit (5 master's / 7 doctorate)
Maximum limit (7 / 9, including leave)	Refresher of 6 units required?

Classification:

☐ Within the normal limit

☐ Extension: graded six-unit refresher required

☐ Beyond the maximum: full re-enrollment required

NOTICE OF ABSENCE WITHOUT LEAVE (AWOL)

Absence without leave | Operations Manual 4.8 | Handbook p. 53

Form code	GS-F-09	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student who withdraws from the Graduate School without a formal leave of absence is in absence-without-leave (AWOL) status and has registration privileges curtailed or entirely withdrawn (Handbook p. 53).
2. The status is recorded from evidence, for example an imported AWOL standing or an enrollment marked withdrawn with no approved leave. It is not based on absence alone and is not entered without the source being stated below.
3. The student is told how to return (GS-F-08). If the Graduate School reports the absence to the Registrar, GS-F-44 is used.

A. Student information

Student name	Student number
Program	Track / major
Stage before the AWOL (research or coursework)	Last term enrolled

B. Source of the evidence

☐ Imported enrollment or standing record (AIMS export)

☐ Semester enrollment marked withdrawn with no approved leave and no resolved return

☐ Report of the Academic Coordinator or professor

☐ Other (state): _____

Details (what was found, dates, attempts to contact the student):

C. Notice to the student

You are recorded as absent without leave from the date above. Your registration privileges are curtailed or entirely withdrawn (Handbook p. 53). To return, file the Application for Readmission (GS-F-08) with the Graduate School Dean.

APPLICATION FOR RESIDENCY ENROLLMENT

Residency enrollment and maximum residence | Operations Manual 4.9 | Handbook pp. 48, 54-55

Form code	GS-F-10	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Residency applies to a student who has finished all coursework and is only working on the thesis or dissertation, or the practicum or internship, after a semester of enrollment for it. It also applies to a student who is not enrolled in any subject but will complete an INC, will take the comprehensive examination, or is waiting for the research publication. Registration for residence must be done within the semester (Handbook p. 48).
2. A student who does not intend to enroll for a valid reason but still has remaining units may not enroll in residency and must file a leave of absence (GS-F-07).
3. Maximum residence: master's, candidacy within three years and all requirements within five years, with a possible two-year extension that requires a graded six-unit refresher, up to seven years including leave; doctorate, five and seven years, up to nine years including leave (Handbook pp. 54-55).

A. Student information

APPLICATION FOR COMPREHENSIVE EXAMINATION

Comprehensive examination | Operations Manual 4.10 | Handbook pp. 56-57

Form code	GS-F-14	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Master's students who have passed all academic requirements and have been evaluated by their Academic Coordinator, and doctorate students evaluated by their College Dean, may apply. Non-thesis students must have completed the integrating courses (Handbook p. 56). The student is advised to enroll in Residency in Comprehensive Examination.
2. File with the Graduate Program Secretary at least two (2) weeks before the examination. Fee: PHP 1,100 for master's and PHP 2,500 for doctorate, paid at the Business Office; attach the official receipt (Handbook p. 57). The fee is forfeited if the examinee does not appear or send a written note.
3. To withdraw the application, inform the Graduate Program in writing, with the reason, at least three (3) working days before the examination (last section of this form).

A. Student information

Student name	Student number

COMPREHENSIVE EXAMINATION RESULT SHEET

Comprehensive examination | Operations Manual 4.10 | Handbook p. 57

Form code	GS-F-15	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The examination covers basic or core courses, the field of concentration, and electives or cognates. For a master's it runs two days (day 1: basic courses and electives or cognates; day 2: major courses). For a doctorate it runs three days (day 1: basic courses and electives or cognates; days 2 and 3: major courses).
2. A student must score at least 7.00 points (70%) in every course to pass. A student below 7.00 may retake the failed courses, with a second retake within the semester. A student who fails the second retake takes a refresher course in the failed courses the next semester and may sit for a third and last time in the next residency enrollment; failure the fourth time means disqualification from the program (Handbook p. 57).
3. Passing without a retake is required for special academic honors (Handbook p. 55). The result is recorded in the COMPRE column of the monitoring workbook.

APPLICATION FOR TITLE DEFENSE

Title defense | Operations Manual 4.11 | Research Protocol Form 1 | Handbook pp. 59-60

Form code	GS-F-16	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Fill in this form and send it with the three (3) concept papers to your Academic Coordinator at least two (2) weeks before the title defense. The Academic Coordinator endorses the application to the Research Coordinator (gsresearch@usls.edu.ph) and recommends a set of panel members; the student does not need the Academic Coordinator's handwritten signature when the endorsement is sent by email with the e-signature.
2. The Research Coordinator then nominates the panel members as recommended by the Academic Coordinator, after deliberation with the GS Research Committee (GS-F-17). The panel deliberates the three titles without the student and decides the title to be pursued (GS-F-18).
3. Answer the four labeled items in Part D completely. Panel composition (Handbook p. 60): project paper, a chair and two members; thesis, a chair and three members; dissertation, a chair and four members. The external panel member joins from the proposal defense onward.

Panel nomination and scheduling | Operations Manual 4.11 | Handbook pp. 60, 63; Protocol, Title Defense I.4

Form code	GS-F-17	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The Research Coordinator nominates the panel members as recommended by the Academic Coordinator, after deliberation with the GS Research Committee (title defense). For the proposal and final defenses the Research Adviser recommends the external panel member, subject to the approval of the GS Research Committee (Protocol, Proposal Defense I).
2. Each nominated member answers the invitation below; a member who is not available on the date marks the slip as unavailable. The defense date is confirmed once the Research Adviser and all required panel members have replied that they are available.
3. The Graduate School Office coordinates the schedule with the panel; the Panel Chair reserves the venue through the Graduate School Office or prepares the online meeting details.

REPORT OF TITLE DEFENSE

Title defense | Operations Manual 4.11 | Research Protocol Form 2 | Handbook pp. 60-61

Form code	GS-F-18	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The panel deliberates the three submitted titles without the student, then decides the title to be pursued. The decision must be reflected on this form. Each panel member accomplishes the form; the Panel Chair emails the accomplished form to the Research Coordinator (gsresearch@usls.edu.ph) and to the student within the first working day after the defense.
2. If all the proposed titles are disapproved, the student presents a new set of three (3) titles and follows the same protocol (new GS-F-16).
3. The student settles the title defense fees by asking the panel members for their preferred mode of payment and emails the proof to the Graduate School Office within the first working day, with a subject line such as SURNAME_Title Defense_Receipt.

APPLICATION FOR DESIGNATION OF RESEARCH ADVISER

Research Adviser designation | Operations Manual 4.12 | Research Protocol Form 3 | Handbook pp. 58-59, 61

Form code	GS-F-19	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The Research Adviser must be affiliated with the University, in a degree program aligned with the student's. The Protocol requires a PhD degree for PhD students and at least PhD units for MA students (CHED CMO 15), and a maximum of five active advisees in the current academic year; the Handbook (p. 58) asks for a doctoral degree aligned with the discipline, and with the Dean's approval a Research Adviser may take more than five advisees in the exigency of service.
2. The student may express a preference, but the Dean, the Associate Dean and the Research Coordinator make the final decision, considering degree, expertise, research work, number of advisees and workload (Handbook p. 59). List the faculty members you propose in order of preference.
3. Email this form to your Academic Coordinator, who notes it by email or letter to the Research Coordinator. The Dean's signature is not required at this point. The Research Coordinator sends it to the Dean for deliberation.

A. Student information

Student name	Student number

ENDORSEMENT FOR PROPOSAL / FINAL DEFENSE

Proposal defense and closed-door final defense | Operations Manual 4.13 and 4.14 | Research Protocol Form 4 | Handbook pp. 63, 65-66

Form code	GS-F-27	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Accomplished by the Research Adviser, with e-signature, once the paper complies with the research paper guidelines of the Graduate School Office. It must reach the Research Coordinator (gsresearch@usls.edu.ph) at least two (2) weeks before the defense.
2. 14-Day Rule: at least fourteen (14) days, inclusive of weekends, must pass from the date the panel members receive their copies of the manuscript to the date of the oral defense (Handbook p. 66). The panel members must not agree to a schedule without the manuscript. The same set of panel members takes part in the closed-door final defense. For a student who is abroad, the Panel Chair recommends an online defense and sends the online details.
3. Attach the manuscript; for a proposal defense of a quantitative study, Form 4.1; for a final defense, the Ethics Clearance. The Research Adviser recommends the external panel member, subject to approval of the GS Research Committee.

COMMENTS SHEET FOR PROPOSAL DEFENSE

Proposal defense | Operations Manual 4.13 | Research Protocol Form 5 | Handbook pp. 63-65

Form code	GS-F-29	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Each panel member accomplishes a sheet and emails it to the Panel Chair for consolidation. The Panel Chair emails the consolidated Form 5 to the student, the Research Adviser and the Research Coordinator within the first working day after the defense. The Research Adviser records the comments of the panel during the defense.
2. If major revisions are recommended, the student is advised to do a re-defense following the same protocol, and the decision must be reflected here. After the revisions, the Research Adviser endorses the paper to the panel for approval and the release of the Technical Review Certificate (GS-F-30).

TECHNICAL REVIEW CERTIFICATE

Proposal defense and ethics review | Operations Manual 4.13 | Research Protocol Form 5.1 | Handbook pp. 64-65

Form code	GS-F-30	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Released after the student has addressed the comments of the proposal defense (Form 5), the Research Adviser has endorsed the revised paper, and the panel members have approved it. The Panel Chair facilitates the accomplishment of this form and emails it to the student and the Research Adviser, with a copy to the Research Coordinator.
2. The student attaches this certificate to the Application for Ethics Review (GS-F-31), which must be filed within one (1) month after the proposal defense.

COMMENTS SHEET FOR FINAL DEFENSE

Closed-door and public final defense | Operations Manual 4.14 | Research Protocol Form 6 | Handbook pp. 66-73

Form code	GS-F-32	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The Research Coordinator sends this form to the panel members. Each panel member accomplishes it and emails it to the Panel Chair within the first working day after the defense. The Panel Chair emails all the sheets with the consolidated comments to the Research Coordinator, the Research Adviser and the student within the same time.
2. The student states, for every comment, the action taken and the page number where the improvement appears (Handbook pp. 72-73). At the public final defense, the panel members keep this sheet in hand to check compliance.
3. A provisional pass with major revisions must be reflected here and must agree with the score on the Evaluation Sheet (GS-F-33): below 85 for a thesis, below 90 for a dissertation (Handbook p. 67).

ENDORSEMENT FOR PUBLIC FINAL DEFENSE

Public final defense | Operations Manual 4.14 | Research Protocol Form 4.3 | Handbook pp. 70-73

Form code	GS-F-35	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This form applies to students admitted in August 2020 and after. The student is given two (2) to four (4) weeks after the closed-door final defense to prepare and apply (Handbook p. 71). Students admitted earlier present at a research conference instead.
2. The Research Adviser first checks that the revised manuscript complies with the suggestions of the panel at the closed-door defense, then emails this form to the Research Coordinator. It must be fully accomplished with the e-signature of the panel members and the date the panel received the manuscript. The Protocol requires the application five (5) days before the preferred schedule, for posting.
3. The Graduate School Office reserves the venue. The Research Coordinator prepares the public announcement, sends it to the Research Adviser, the student and the panel, with copy to the Associate Dean and the Dean, and posts it on the Graduate School Facebook page with the pre-registration link.

SIMILARITY INDEX (TURNITIN) CERTIFICATION

Revisions and completion | Operations Manual 4.15 | Handbook p. 68; Protocol, Closed-door Final Defense III

Form code	GS-F-36	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. After the Research Adviser has verified that the panel's recommendations are reflected in the manuscript and has endorsed it for scanning, the student requests the Turnitin scan by emailing turnitin@usls.edu.ph. A similarity index rating (SIR) of not more than 15% is required before the paper goes to the editor (Handbook p. 68).
2. The administrator who ran the scan completes and signs this certification. Attach the Turnitin similarity report. The certification is one of the documents the student sends to the Graduate School when the manuscript is ready for hard-bound reproduction.

EDITOR CERTIFICATION

Revisions and completion | Operations Manual 4.15 | Research Protocol Form 9 | Handbook p. 68

Form code	GS-F-37	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The student chooses an editor from the pool of editors affiliated with the University, so that the USLS Institutional Research Format (IRF) is applied. The Research Adviser may not be the student's editor (Handbook p. 59). The 14-Day Rule applies to the time the editor has for review. The editor gives this certification once the corrections have been carried out.
2. The student sends the Editor Certification, with the final manuscript, the panel approval emails, the Ethics Clearance and the Turnitin certification, to the Graduate School Office (gsresearch@usls.edu.ph), copy to the ethics committee.

PRACTICUM AGREEMENT (MEMORANDUM OF AGREEMENT)

Practicum | Operations Manual 4.17 | Handbook p. 48

Form code	GS-F-11	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Used for programs with a practicum or internship. Complete it before the practicum starts; the Graduate School keeps the signed original and gives a copy to the host organization.
2. The Academic Coordinator reviews the agreement and marks the practicum as in progress once it is signed by all parties.

A. Parties

This agreement is made between the UNIVERSITY OF ST. LA SALLE, Graduate School, Bacolod City (the University), the HOST ORGANIZATION named below, and the STUDENT named below, for the practicum of the student.

B. Student

Student name	Student number
Program	Track / major
Academic year / semester	Contact number

C. Host organization

Name of host organization	
Address of practicum site	
Name of supervisor	Position of supervisor
Supervisor's contact number	Supervisor's email

D. Practicum

Start date	End date
Required hours	Schedule (days and times)
Main activities and learning objectives	

E. Responsibilities

The University shall endorse the student to the host organization, recognize the practicum hours certified by the host, and designate the Academic Coordinator as its contact. The host organization shall give the student supervised practice in line with the objectives above, certify the hours rendered, and issue a certificate of completion. The student shall follow the policies of the host organization, keep confidential the information entrusted to the student, report the hours truthfully, and inform the Academic Coordinator of any problem. Any party may end the agreement by written notice, and hours already rendered remain subject to evaluation by the Academic Coordinator.

PRACTICUM HOURS LOG AND SUPERVISOR'S CERTIFICATION

Practicum | Operations Manual 4.17

Form code	GS-F-12	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The student records every day of practicum. The supervisor initials the entries and signs the certification below. If the hours were rendered in more than one organization, use one form for each organization; the Graduate School accepts several certificates.
2. Attach the form to GS-F-13 when the required hours are complete.

A. Student and site

Program	Track / major
Host organization	Supervisor
Period covered	

B. Daily log

Date	Time in	Time out	Hours	Activities done	Supervisor initials

Total hours in this log	Required hours

C. Certification of the supervisor

This is to certify that the student named above rendered the total number of hours stated in this log at the host organization, in the period covered shown, and that the entries are true to the records of the organization.

PRACTICUM COMPLETION REPORT

Practicum | Operations Manual 4.17

Form code	GS-F-13	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Prepared by the Academic Coordinator after verifying the hours and documents. The Dean reviews the report; the Dean does not approve or deny the practicum.
2. If the hours are short, the report is returned to the student with the reason. Earlier files are kept; additional evidence is added, never replaced.

A. Student

APPLICATION FOR GRADUATION

Graduation application and endorsement | Operations Manual 4.18 | Handbook pp. 55-56, 68-69, 75-77, 80

Form code	GS-F-42	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student is considered a graduate only after completing all the requirements below; a student who has not met them may not take part in the graduation ceremony (Handbook p. 77). The student must be officially enrolled in the semester of application.
2. The Graduate School checks that each document is present. It does not verify the content of the documents. The University Registrar certifies the eligibility of candidates for graduation and honors (Handbook p. 32). An application with wrong information is returned and replaced by a new corrected form; the first form is kept.
3. Graduating students attend the Alumni seminar (Handbook p. 80) and present the thesis or dissertation at a research conference, either the Graduate School Research Conference or an external one (Handbook pp. 69, 74).

GRADUATION ENDORSEMENT LIST

Graduation application and endorsement | Operations Manual 4.18 | Handbook pp. 32, 77

Form code	GS-F-43	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. The Graduate School Staff compile the candidates whose coursework, research and, where applicable, practicum are complete and who have submitted a signed graduation application (GS-F-42). The Academic Coordinator checks the coursework; the Research Coordinator validates the research completion documents.
2. The Dean approves the list and sends it to the University Registrar by official email with GS-F-44. The Registrar certifies the eligibility of candidates for graduation and honors (Handbook p. 32).

Records handoff to the Registrar | Operations Manual 4.19 | Handbook pp. 32, 49-50, 53

Form code	GS-F-44	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Use one transmittal for each handoff to the Registrar: a notice of an approved leave with the reasons and any refund, a copy of the Withdrawal Form, the Dean's endorsement of a returning student, or the graduation endorsement list. The Graduate School's responsibility ends at sending the request to the Registrar.
2. The Registrar records receipt in the last section. The Graduate School keeps the original and does not treat the matter as done until the Registrar's confirmation is on file. Official enrollment and grade data stay with the Registrar.

DATA PRIVACY CONSENT AND ACKNOWLEDGEMENT

Data privacy and records retention | Operations Manual 4.23 | RA 10173 (Data Privacy Act of 2012); GS-P-04

Form code	GS-F-45	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This is the paper twin of the notice shown once to every account holder at first sign-in to the Graduate School platform (GS-P-04, Data Privacy Notice and Records Retention Schedule). Use it for a person without a platform account, or when a signed copy is wanted for the file.
2. Read GS-P-04 before you sign. It states what personal data the Graduate School keeps, why, who sees it, what leaves the platform for an outside service, how long it is kept, and how you can ask to see, correct or remove it (Data Privacy Act of 2012, sections 11, 12 and 16).
3. Consent is given item by item. The Data Protection Officer of the University is the contact for questions and complaints (contact: _____).

A. Person

Full name		Student number or employee number
Institutional email		Program or office
Mobile number	Date	Revision of GS-P-04 read

B. Role

☐ Student
☐ Faculty member
☐ Graduate School Staff or Academic Coordinator
☐ Research Coordinator or Dean
☐ Other: _____

C. Consent

Tick each item you agree to. An item left blank is recorded as not agreed.

☐ I have read GS-P-04 and understand it.

☐ I agree that the Graduate School keeps and uses my personal data for the lifecycle of a graduate student (admission, enrollment, requests, research, graduation) as GS-P-04 describes.

☐ I understand that, when the Policy Assistant is switched on, my questions and short policy passages (and, for a personal question, a short summary of my own record or work queue) are sent to an outside service to produce an answer, as GS-P-04 section 5 describes.

☐ Faculty members only: I agree that defense schedules are written to the Google Calendar I connect to the platform, with the defense type, the student's name, the time and the venue.

☐ I know my rights to be informed, to object, to access, to correct, to have data blocked or removed, to data portability and to claim damages, and that I may complain to the National Privacy Commission (RA 10173, section 16).

PLATFORM ACCOUNT AND ROLE REQUEST

Platform accounts and roles | Operations Manual 4.21 | GS-P-05

Form code	GS-F-46	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Use this form to ask for a platform account, to change the role of an account, or to remove an account when the holder leaves the Graduate School or the role. A student account is created by the platform when the student is handed off from admission; this form is for every other account.
2. Every account has one role. The role decides what the holder can see and do (GS-P-05, Platform Access and Roles Matrix). Ask for the least access the work needs.
3. The head of the requester's office endorses, the Dean approves, and the Graduate School Staff or the platform administrator sets up the account and hands over the first password privately. The holder must choose a new password at first sign-in.

A. Requester

Full name	Position
Office or college	Institutional email (becomes the sign-in name)
Mobile number	Date of request

B. Request

☐ New account
☐ Change of role on an existing account
☐ Remove (deactivate) the account

C. Role requested

Choose one:

☐ Graduate School Staff
☐ Academic Coordinator (state the program areas below)
☐ Research Coordinator
☐ Dean
☐ Faculty Member
☐ Administrator (technical set-up only)

Program areas or scope the role covers
Reason for the request (and, for a removal, the date the person leaves)

I will use only my own account and keep my password private. I will choose my own password (at least 10 characters) at first sign-in, never share the account, and tell the Graduate School at once if I think someone else has used it. I have read GS-P-04.

FACULTY COURSE PREFERENCE AND AVAILABILITY

Faculty course preference and teaching load | Operations Manual 4.20

Form code	GS-F-47	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Filled by a faculty member for each term, or whenever the hours change. The Academic Coordinator or the Graduate School Staff key the answers into the platform (the faculty member can also enter them in the faculty portal). The same answers are used to propose the teaching load (GS-F-48) and to check defense schedules.
2. Part B lists the subjects you prefer to teach; priority 1 is the most preferred. A preference does not grant the load. Part C is your usual weekly hours. Part D is for single dates and for dates you cannot be reached; unavailability always wins over available hours.
3. Part E answers a request from the Graduate School to enter your availability for a student's defense. Times use Philippine local time.

TEACHING LOAD ASSIGNMENT

Faculty course preference and teaching load | Operations Manual 4.20 | GS-F-04, GS-F-47; Handbook p. 48 (special classes)

Form code	GS-F-48	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Prepared by the Academic Coordinator for each program and term, after the Term Course Offering Plan (GS-F-04) and the faculty answers (GS-F-47) are in. One line for each subject section that needs a professor. The Dean approves the assignment before it is published; each faculty member acknowledges the load.
2. The Handbook states no limit on the load of a professor, so the maximum load is written in by the Graduate School. A professor is proposed only for dates and hours the professor has entered as available.

ELECTRONIC APPROVAL AND SIGNATURE POLICY

Electronic approval and signatures | Operations Manual 4.22

Form code	GS-P-03	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This policy proposes when an approval recorded in the Graduate School platform counts as the signature of the same officer on the matching GS-F form. It takes effect when the Dean signs below.
2. Until it takes effect, forms are signed on paper or, for the Research Protocol forms, with the e-signature sent by email as the Protocol already requires.
3. The laws are cited so that the Dean and the University's legal counsel can check them. This document is not legal advice.

1. Purpose and scope

1.1 Purpose: to let one act (the approval in the platform) stand for the officer's signature on the paper form, so that the platform and the paper file never disagree and nobody signs twice.

1.2 Covered: the endorsements, recommendations, approvals and decisions that the platform records for the holders of the roles Graduate School Staff, Academic Coordinator, Research Coordinator, Dean and Faculty Member (GS-P-05).

1.3 Not covered: signatures of people without a platform role - the Associate Dean, the Graduate Program Secretary, the Business Office, the University Registrar, the Vice Chancellor for Academic Affairs, host organizations (GS-F-11), editors and the Turnitin administrator. Their signatures stay on paper or by email until each accepts this policy in writing.

1.4 Not covered: a signature that is a legal undertaking by a student, such as the Practicum Agreement (GS-F-11) and the consent on GS-F-45. A request a student files while signed in to the student portal is the student's application for that request; it does not replace the student's signature on a legal undertaking.

2. Legal basis

2.1 Republic Act No. 8792, the Electronic Commerce Act of 2000: section 7 gives electronic documents the legal recognition of written ones; section 8 makes an electronic signature equivalent to a handwritten signature when a procedure that the parties cannot alter identifies the signer, is reliable for the purpose, is needed for the signer to go on with the transaction, and can be verified by the other party; section 9 sets a presumption for electronic signatures; section 12 deals with the admissibility and weight of an electronic data message or document. The reading of section 8 is a paraphrase.

2.2 The Graduate School already works this way by email. The Research Protocol AY 2024-2025 and the Handbook (pp. 61, 63, 72-73) require Form 4 and Form 4.3 to be accomplished with e-signature and move Forms 3 and 3.1 by email between the Academic Coordinator, the Research Coordinator and the Dean (Operations Manual rules PRP-02, FIN-12, ADV-09). This policy applies the same idea to the platform.

3. The rule

3.1 An approval, endorsement, recommendation or decision recorded in the platform by the signed-in holder of the role named on a GS-F form counts as that officer's signature on that form, at the date and time recorded.

3.2 The record is the transaction-log entry of the platform. It shows who acted (account holder and role), what was done and the result, when, the status before and after, the next owner and the source reference. The log entry, not a screenshot or a printout, is the evidence.

3.3 Only the holder of the account may act. An account is never shared and nobody approves in another person's name. A delegate (an authorized representative, where a form allows one) approves from the delegate's own account, with a written designation filed with the Dean.

3.4 The shared demonstration accounts used to present the platform carry no authority. An approval made with them is a demonstration, not a signature.

3.5 A paper copy is allowed: the Graduate School may print the form with the log entry attached. A correction is a new, later step with its reason; the earlier entry stays.

Role	Approvals the platform records for the role (checked in the role gates of the platform)	Forms
Dean	Acceptance of the onboarding report; approval of the term course offering plan; decisions on leave, readmission, withdrawal and absence-without-leave cases; approval of adviser appointments; approval of graduation endorsements and the endorsed list	GS-F-01, 04, 05, 07, 08, 09, 20, 42, 43, 48
Academic Coordinator	Review of study plans and subject status; course adjustment plan; Form 1 endorsement; noting of adviser applications; coursework check for graduation; practicum verification	GS-F-02, 03, 13, 16, 19, 42
Research Coordinator	Adviser appointment record; panel invitations; defense scheduling decisions; validation of research documents for graduation	GS-F-17, 19, 20, 21, 27, 28, 43
Graduate School Staff	Preparation and recording (batches, imports, registrar exports); the steps of a case that the staff own. Staff record; they do not approve in place of the Dean	GS-F-01, 43, 44
Faculty Member	Reply to a panel invitation; acceptance of an adviser appointment; defense verdicts for the member's own panels	GS-F-17, 18, 20, 29, 32, 33

4. How the platform meets the legal test

Requirement of RA 8792 section 8 (paraphrased)	What the platform does (verified in the code)	Gap or limit
The signer is identified	One account per person; the sign-in name is the institutional email; the role is stored on the account and a role sent by the browser is ignored	Accounts are created outside the platform for most roles (GS-P-05)
The method is reliable	Passwords are stored as hashes; a generated password must be replaced at first sign-in (at least 10 characters); repeated wrong passwords are slowed (a wait that doubles up to 30 seconds); signing out ends the session; the session cookie is HttpOnly and SameSite Lax, and Secure when the site runs over HTTPS	No second factor; the wait counter is kept in memory and resets on restart
The signature is needed to go on	A case moves forward only when the role named for the step records it; other roles are refused with a message	-
It cannot be altered and the other party can verify it	Each step appends a log entry with the actor, role, time and the statuses; no screen or route edits or deletes an entry	Entries are removed with the student record if that record is ever deleted; the platform's own clock is the only time source; no certificate or hash chain

5. Limits and fallbacks

5.1 Where this policy does not apply, or while the platform is unavailable, the form is signed on paper or by email as today and keyed in afterwards, with the note "signed on paper on [date]".

5.2 A person who disputes an approval asks the Dean to review the log entry. The Dean's decision is recorded as a new entry.

5.3 Retention of the log and the forms follows the retention schedule in GS-P-04, section 8.

DATA PRIVACY NOTICE AND RECORDS RETENTION SCHEDULE

Data privacy and records retention | Operations Manual 4.23

Form code	GS-P-04	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This notice tells every account holder of the Graduate School platform what personal data is kept, why, who sees it, what leaves the platform for an outside service, how long it is kept, and how to use the rights the law gives. A short form of it is shown once at first sign-in; GS-F-45 is its paper twin.
2. Section 5 states what each call to an outside service sends.
3. At the time of writing the platform is a capstone prototype that holds demonstration data only. This notice is drafted for the day it holds real student records.

1. Purpose, scope and status

1.1 Purpose: to give effect to the Data Privacy Act of 2012 (Republic Act No. 10173) for the personal data processed by the Graduate School of the University of St. La Salle in its Graduate Student Lifecycle Monitoring platform.

1.2 Scope: students, faculty members, and staff, coordinators, the Dean and the administrator who hold platform accounts, and the people named in the records the platform keeps.

1.3 The notice takes effect when the Dean signs below. Official student, enrollment and grade data remain with the University Registrar's system (AIMS); the platform holds a monitoring copy and never overwrites an official value.

2. Legal basis and who is responsible

2.1 RA 10173 and its Implementing Rules and Regulations. The regulator is the National Privacy Commission (NPC), which the Act creates (section 7). The Act's general principles are transparency, legitimate purpose and proportionality (section 11); personal information may be processed on consent and on the other grounds of section 12; the rights of the data subject are in section 16; security is in section 20.

2.2 The University is the personal information controller. The University's Data Protection Officer (DPO) is the contact for this notice. DPO name and contact: _____.

2.3 Health information (for example a medical certificate attached to a leave request) is sensitive personal information under the Act and is handled with stricter care: it is attached to the request only when the person chooses to upload it, and it is seen only by the roles that decide the request.

3. What the platform keeps, why, and who sees it

Data	Examples	Purpose	Seen by (see GS-P-05)
Identity and program	Name, student number, institutional email, program, year of entry	Know who is enrolled and in which program	Staff, coordinators, Dean; the student sees the own record
Academic progress	Subjects completed, comprehensive examination, research milestones, standing	Monitor progress, advise, check graduation	Staff, coordinators, Dean; the student sees the own record
Case records	Leave, readmission, withdrawal, absence without leave, residency, practicum, graduation endorsement, with reasons and attached files	Run and decide the requests	The roles named for each step; the student sees the own cases
Research records	Title, adviser, panel, defense schedule, verdicts, uploaded papers and evidence	Run the research steps	Research Coordinator, staff, Academic Coordinator, Dean; faculty see only the own panels
Faculty records	Name, college, specialization, email, course preferences, weekly hours, availability, connected calendar	Match panels, propose teaching load, schedule defenses	Staff and coordinators; the faculty member sees the own record

Data	Examples	Purpose	Seen by (see GS-P-05)
Account and log	Sign-in email, name, role, password hash (never the password), consent time and notice version, transaction log of every recorded step	Sign-in, accountability, proof of approval (GS-P-03)	Staff and the Dean read the log; the administrator maintains the system

4. Sources of the data

4.1 The Registrar's export or the Academic Coordinator's monitoring workbook (identity, enrollment, subjects), the person's own entries and uploads, the staff's records of each step, and, for faculty members who connect it, Google Calendar (section 5).

5. What leaves the platform for an outside service

5.1 Policy Assistant (Google Gemini, endpoint generativelanguage.googleapis.com). This runs only when a Google API key is set in the server's environment. Without the key the assistant uses keyword search on the server and nothing is sent. When the key is on, the calls below are made.

Call	What is sent to Google	What is not sent
Index of the policy library	The text of each library passage, with its title and source (Handbook, Research Protocol, the other built-in documents, and PDFs that staff upload), once to be turned into search vectors, and again when a document changes	Any student, faculty or account data
Each question typed in the assistant	The question text, to be turned into a search vector	The name or role of the person asking
Answer to a policy question	The question and the four or more best-matching policy passages, with an instruction to answer only from them	Any student record
Personal question by a student (for example "What is my next step?")	The question and a short text built from the student's own record: stage, program, standing, progress status, percentage of subjects completed, missing subjects, open tasks, missing documents, the next defense	The student's name and student number (they are left out). Open task titles are sent as written and may contain other names
Personal question by staff, coordinator, Dean or faculty	The question and the list of up to eight items waiting on the person: task titles with the student's name and the due date; for faculty, the panel invitations with the student's name	Passwords, contact numbers, uploaded files
Unclear question	The question text, to decide which kind of question it is	-
Panel matching (staff and coordinators)	An excerpt of up to 5,000 characters of the text of the student's uploaded research paper, with the name, specialization and matched terms of the faculty considered; the paper text (first 9,000 characters) and each faculty profile text, for similarity vectors	The student's name, student number and the file name

5.2 Google Calendar (only for a faculty member who connects a calendar from the faculty portal). The platform asks for permission to read free and busy times and to create and change the events it owns. It stores the access and refresh tokens encrypted. When a defense is scheduled it writes an event whose title is the defense type and the student's name, with the time and the venue. The faculty member can disconnect, which asks Google to revoke the access.

5.3 Nothing else sends personal data out of the platform. The platform sends no email: staff send the exports to the Registrar by the University's own email. What each outside service does with the data is governed by its own terms.

6. Your rights

6.1 Under section 16 of the Act the person has the right to be informed, to object, to access, to correct, to have the data suspended, withdrawn, blocked, removed or destroyed, to data portability, and to claim damages. Consent given at first sign-in may be withdrawn in writing; the Graduate School then keeps only what a rule of the University or the law requires.

6.2 To use a right, write to the Graduate School Office or the DPO (contact: _____). The Graduate School answers in writing within fifteen working days. A complaint may be filed with the National Privacy Commission.

7. Security measures

7.1 Passwords are stored as hashes. A generated password must be replaced at first sign-in. Every function behind the sign-in is limited to the roles named for it (GS-P-05). Repeated wrong passwords are slowed. The session cookie is HttpOnly and SameSite Lax, and Secure when the site is served over HTTPS (to be switched on when the platform is hosted). Uploaded files are kept in a folder on the server, not in the web page area. Google tokens are stored encrypted.

7.2 A suspected breach is reported at once to the DPO. The IRR requires the NPC and the affected people to be notified within seventy-two (72) hours of knowledge of a breach that meets the stated conditions.

8. Retention schedule

Record	Kept for	Then
Student case files: requests, forms, practicum, research records, log entries of the case	5 years after graduation or after the last enrollment	Delete or anonymize, with the Dean's approval
Graduation endorsement lists (GS-F-43) and Registrar transmittals (GS-F-44)	Permanently	Kept in the Graduate School archive
Uploaded papers and evidence (research, practicum, medical certificates)	As the case file they belong to; medical certificates 1 year after the case closes	Delete
Faculty availability and preferences	While the person teaches in the Graduate School, then 1 year	Delete
Google Calendar tokens	Until the faculty member disconnects or leaves	Delete at once
Account record and consent record	While the account is active, then 5 years (proof of consent and of approvals)	Delete
Policy Assistant questions	Not stored by the platform; Google's own handling is outside the platform	-
Official enrollment and grade data	Not owned by the Graduate School; the Registrar's schedule applies	-

PLATFORM ACCESS AND ROLES MATRIX

Platform accounts and roles | Operations Manual 4.21

Form code	GS-P-05	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This document lists the roles that exist in the Graduate School platform, what each can see and do, and how an account is requested, approved, set up, reviewed and removed (request form GS-F-46). The roles are the ones in the platform's role list; the summary groups the functions of the platform by role.
2. It is a summary, not a list of every function. Where the Handbook or the Research Protocol names an officer who has no role in the platform (the Associate Dean, the Graduate Program Secretary), that officer signs on paper.
3. It takes effect when the Dean signs below.

1. Purpose and principles

1.1 Purpose: to make sure each person sees and does only what the person's work in the Graduate School needs, and that every approval can be traced to a named person (GS-P-03).

1.2 Least privilege: ask for the role that fits the work, not the widest one. One person holds one account and one role. Accounts are never shared. The Administrator role passes every role gate in the platform and acts as Graduate School Staff in workflow steps, so it is limited to the named person who maintains the system and is not used for approvals.

2. Roles and what each can see and do

Role	Can see and do	Cannot
Graduate School Staff	Imports the monitoring workbook and class lists; manages the policy library and the business rules; prepares and exports registrar lists; terms and records to fix; reports and the activity log; records the steps they own in each process; keeps faculty records	Take the Dean's decisions; approve in place of the Dean
Academic Coordinator	Student monitoring and study plans; course offerings and course adjustment plan; subject status; Form 1 endorsement; graduation coursework check; practicum, comprehensive examination and absence-without-leave records; reports; faculty records	Upload to the policy library; import the admission handoff; take the Dean's decisions
Research Coordinator	Research gates; panel matching and invitations; defense scheduling; adviser appointments; availability requests; validation of research documents for graduation; reports	See enrollment and leave cases outside the research steps
Dean	Decisions and approvals: onboarding reports, term course offering plan, leave, readmission, withdrawal and absence cases, adviser appointments, graduation endorsement and the endorsed list; reports and decision support; policy questions	Edit records; see the work of other roles beyond the cases that reach the Dean
Faculty Member	Own profile, course preferences, availability and calendar link; replies to panel invitations; adviser requests; defense schedules and verdicts of own panels; policy questions	See student records beyond the own panels; see other faculty members' details
Student	Own record, requests and attachments, adviser, research evidence, defense calendar, messages; questions about the own record and policy	See any other student; decide any request
Administrator	Every function (passes all role gates); acts as Graduate School Staff in workflow steps	Not for approvals

3. Account lifecycle

3.1 Request: the person fills GS-F-46; the head of the person's office endorses; the Dean approves. Nobody receives an account without the Dean's approval, except a student, whose account is created by the platform when the student is handed off from admission.

3.2 Set-up as the platform works today: a student account is created at the admission handoff import; a faculty login is created by Graduate School Staff or an Academic Coordinator from the Faculty page with a temporary password; the other roles are set up by the administrator, because the platform has no screen to create them. The temporary or generated password is handed over privately and must be replaced at first sign-in (at least 10 characters, not the email name).

3.3 First sign-in: choose a new password, then read and accept the privacy notice (GS-P-04, GS-F-45). The acceptance is stored once per account with the notice version.

3.4 Review: each term, the Academic Coordinators and the Graduate School Staff check the list of accounts against the people who still hold the role. A change of role uses GS-F-46.

3.5 Removal: when a person leaves the Graduate School or the role, GS-F-46 asks for the account to be deactivated the same day. A deactivated account cannot sign in; its log entries stay.

4. Rules for every account holder

4.1 Use your own account only; do not share the password; sign out on a shared computer. Tell the Graduate School at once if you think someone else used your account. The demonstration accounts are for presenting the platform and have no authority (GS-P-03).

4.2 The platform slows repeated wrong passwords, ends the session at sign-out, and refuses a function the role is not allowed (message: this account cannot access that area).

AIMS AND REGISTRAR DATA EXCHANGE SPECIFICATION

AIMS and Registrar data exchange | Operations Manual 4.24

Form code	GS-P-06	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. This specification states which files come into the Graduate School platform from the Registrar's system (AIMS), which files go out to the University Registrar, who sends them, and when.
2. Data exchange is by file only. The platform does not connect to AIMS, stores no AIMS credentials and does not copy AIMS screens. Official student, enrollment and grade data stay with AIMS and are read-only in the platform; a correction is made in AIMS and arrives in a later file.
3. It takes effect when the Dean signs below.

1. Purpose and principles

1.1 Purpose: to make the hand-over of student data between the Registrar and the Graduate School a known, repeatable routine and to say exactly what each file holds.

1.2 Principles: AIMS is the source of record for identity, enrollment, subjects, grades and course completion. The platform checks and previews a file before it imports it, keeps the uploaded file and its result, and never overwrites an official value in place. A value typed in the platform is marked as manual entry with who, when and why.

2. Files that come in

File	Columns the import reads	Type, sent by, when
Program monitoring sheet (AC Student Monitoring workbook) - the import that works today	A1 = PROGRAM: code. Header row with IDNO and COURSE (and YR, COMPRE, NOTE); the row under it with AY ENTRY, SN, FN, the subject codes and the milestones TITLE, PROPOSAL, ETHICS, FINAL. One student per row; a subject cell with a unit value means completed. Required per row: student ID, first name, last name, school year of entry (a row missing one is reported, not imported)	Excel .xlsx or .xlsm. The Registrar or the Academic Coordinator sends it; Graduate School Staff upload it through Student Handoff. When: at the start of each term and after grades are posted
Class list	Student ID, Subject code, Faculty (the column must exist), and optionally Academic year, Term, Enrollment status (enrolled or current, or dropped), Status effective date, Remarks, first and last name, program. A row for a different semester than the one chosen is refused; a subject the program does not offer is refused	CSV or Excel. The Registrar sends it; Graduate School Staff or an Academic Coordinator preview and import it. When: each term after enrollment closes

3. Files that go out to the University Registrar

File	Contents	Made by, form
Approved leave of absence and approved readmission lists	Request, student ID, name, program, leave from and until, return semester, reason, Dean's decision date and remarks, endorsement for the Registrar, handoff status	Graduate School Staff; CSV or Excel; sent with GS-F-44
Approved subject withdrawals workbook	Application ID, student ID and name, program, subject code, title and units, semester and its start, withdrawal deadline, request and Dean approval dates, reason, Registrar action, record effect, status, fee tier (information only)	Graduate School Staff; Excel; sent with GS-F-44
Graduation endorsed list	Batch, student ID, name, program, coursework and research status, endorsement status, Dean's approval date and remarks, export status	The Dean; CSV; sent with GS-F-44 and GS-F-43
Absence-without-leave return and residency reports	Student, ID, program, the dates and terms, the Dean's decision and the policy check.	Graduate School Staff or Academic Coordinator; CSV
Monitoring export	The program's monitoring workbook with the portal's changes and their provenance, in the layout of the import so it can be uploaded again	Staff, coordinators, Dean; Excel

3.1 The platform does not send email. The sender emails each file to the Registrar through the University's channel, records the hand-over (sent, then acknowledged) in the platform, and files GS-F-44 with the Registrar's acknowledgement.

4. Quality rules

4.1 A class list is previewed before it is imported; every row is marked ready, warning or error with its reason. The monitoring sheet import reports rows with missing required fields as issues. The uploaded monitoring sheet and the result of its import are kept with the upload record, so a later file can be compared with it. Importing a class list twice does not enrol a student twice (rows already enrolled are counted as already enrolled).

4.2 The files carry personal data. They are sent only to the Registrar's named address, kept in the Graduate School's own folders and retained as GS-P-04 section 8 states.

REQUEST FOR APPROVED ABSENCE

Dropping and attendance | Operations Manual 4.5 | Handbook p. 52

Form code	GS-F-49	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student who takes part in a school-sponsored activity or represents the University in an official capacity is granted an Approved Absence upon the approval of the Dean. The absence is noted on the attendance record and is not counted against the allowed absences in the subject (Handbook p. 52).
2. The privilege does not relieve the student of the responsibility of making up any work missed (Handbook p. 52). File the request before the activity, with the invitation or endorsement of the organizer.
3. An absence for a graduate program activity endorsed by the Dean is also an excused absence (Handbook p. 52); this form may be used for it too. The Academic Coordinator recommends; the Dean approves.

A. Student

Student name	Student number
Program	Track / major
Academic year / semester	Date of this request

B. Activity

The absence is for:

☐ A school-sponsored activity

☐ Representing the University in an official capacity

☐ A graduate program activity endorsed by the Dean

Name of the activity and organizer	
Venue	Dates of the activity
Hours of class to be missed	Attached (invitation, endorsement)

C. Subjects affected

Subject code	Subject title	Professor	Dates missed	Hours

I will make up all work missed, to the satisfaction of the professor of each subject, and I understand that the Approved Absence does not excuse that work.

INCOMPLETE GRADE REMOVAL FORM

Incomplete grades | Operations Manual 4.5 | Handbook pp. 48, 54

Form code	GS-F-50	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A grade of INC may be given if the class standing is passing but the student did not take the final examination, or did not complete other requirements for the subject, due to illness or other valid reasons (Handbook p. 54). Removal of the INC must be done within one (1) academic year by meeting all the requirements of the course (Handbook p. 54).
2. The student submits this form to the Graduate School Office within the set deadline (email gsm@usls.edu.ph). A student who does not comply after a year automatically gets 3.0 (master's) or 2.0 (doctorate) and has to take the subject again; a student with INC in all subjects is dropped from the rolls of the Graduate School (Handbook p. 54). A student not enrolled in any subject who wants to complete an INC enrols in residency (Handbook p. 48).
3. This form is kept on paper in the Graduate School Office. The Graduate School states the deadline in the space below.

A. Student

Student name	Student number
Program	Track / major
Date of this form	Contact number

B. Subject with the INC

Subject code	Subject title
Professor	Academic year / semester the INC was given
Date by which the INC must be removed (one academic year)	Deadline set by the Graduate School

C. Reason for the INC

☐ Did not take the final examination

☐ Did not complete other requirements of the subject

APPLICATION FOR CROSS-ENROLLMENT

Cross-enrollment | Operations Manual 4.2 | Handbook p. 50

Form code	GS-F-51	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Coursework taken at another institution by a regularly enrolled student is not credited unless the student has secured the written permission of the Dean in advance. That permission is the basis of the cross-enrollment permit that the Registrar issues (Handbook p. 50).
2. Normally cross-enrollment is not allowed unless the student is graduating and the course is not offered in the semester the student is supposed to graduate. A student may not cross-enrol in major elective or major professional courses (Handbook p. 50).
3. Procedure: (1) secure the Dean's approval, (2) present it to the Registrar for the cross-enrollment permit, (3) after the course, submit the grade to the Registrar for the academic record; the student secures the transcript of credit (Handbook p. 50).

A. Student

Student name	Student number

REQUEST FOR A SPECIAL CLASS

Special and undersized classes | Operations Manual 4.3 | Handbook p. 48

Form code	GS-F-52	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A special class may be requested and offered when the Academic Coordinator requests it through the Dean, addressed to the Vice Chancellor for Academic Affairs (Handbook p. 48). An undersized class is treated as a special class (Handbook p. 48).
2. The class follows the Blended Learning Mode: 32 contact hours plus independent study. The fee is computed as for undergraduate courses (the professor's rate per load for 5 months plus the 13th month and administrative expenses, divided by the number of students enrolled) and is added to the regular tuition (Handbook p. 48).
3. The Dean sees that each new batch reaches the minimum number of enrollees, with an allowance for attrition (Handbook p. 48). The Graduate School writes in the minimum for the program.

A. Class requested

Program	Academic year / semester
Subject code	Subject title
Units	Number of students who need it
Minimum enrollees set by the Graduate School	Professor proposed

B. Reason

☐ Undersized class (fewer than the minimum enrollees)
☐ Subject needed by students who are graduating
☐ Subject needed to keep a batch on schedule
☐ Other (state below)

C. Students who need the class

Student no.	Name of student	Year of entry	Reason needed

Proposed schedule (blended: 32 contact hours plus independent study)
Other remarks

The fee of the special class is computed by the Business Office with the formula of Handbook p. 48 and is paid in addition to the regular tuition.

REQUEST FOR TRANSFER BETWEEN MASTER'S OPTIONS

Transfer between master's options | Operations Manual 4.2 | Handbook p. 48

Form code	GS-F-53	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. A student in the master's program may be allowed to transfer to another master's option, subject to the approval of the Dean, upon the recommendation of the Academic Coordinator and endorsed by the Associate Dean (Handbook p. 48). This form does not apply to a transfer between a master's and a doctorate program.
2. The Dean decides which subjects already taken are credited to the new option. The Registrar is informed of an approved transfer.

A. Student

Student name	Student number

NOMINATION FOR BEST THESIS / DISSERTATION

Best thesis and dissertation award | Operations Manual 4.18 | Handbook pp. 76-77

Form code	GS-F-54	Revision no.	00	Effectivity date	

INSTRUCTIONS

1. Awards are given to the best theses and dissertations to recognize outstanding research (Handbook p. 76). The criteria are Format/Content 15 points, Analysis/Discussion 40 points, Findings/Action Plan/Program 15 points, and Originality/Novelty/Contribution to New Knowledge/Applicability of Research 30 points; total 100 (Handbook p. 76).
2. A cut-off score of 96 points is set to qualify as an outstanding project paper, thesis or dissertation. The chairman of the committee or the Dean submits the work to the committee for deliberation, and approval by the majority is required (Handbook p. 77).
3. The Research Adviser or the Panel Chair nominates a work after the final defense. The committee scores it and deliberates.

A. Nominee

Student name	Student number
Program	Track / major
Title of the project paper, thesis or dissertation	
Research Adviser	Date of the final defense
Academic year of graduation	

Kind of work:

☐ Project paper ☐ Thesis ☐ Dissertation

Nominated by (Research Adviser or Panel Chair)	Date of nomination

B. Score of each committee member (Handbook p. 76)
