Date and session		

Welcome to the User Acceptance Testing (UAT) of the Graduate Student Lifecycle Monitoring and Analytics Platform.

The purpose of this UAT is to determine whether the developed system supports the actual monitoring and coordination needs of the University of St. La Salle Graduate School.

During this test, you will see or perform common Graduate School tasks involving student monitoring, research requirements, panel selection, defense scheduling, approvals, and other lifecycle processes. Your responses will help the development team identify functions that work as expected and areas that may still require improvement.

Please evaluate the system based on your actual experience during testing. Only judge what you saw or did. All names and records in the demonstration are sample data.

HOW TO ANSWER

Yes / No / N/A	**Yes –** The function worked as expected. **No –** The function did not work as expected or requires improvement. Please explain in Comments. **N/A –** The function was not shown or tested, or does not apply to your role.
Rating questions	**1–5 –** Under each rating question, the scale is printed with its own words. 1 is the lowest and 5 the highest. Generally: 1 Very poor / Very difficult, 2 Poor / Difficult, 3 Acceptable, 4 Good / Easy, 5 Excellent / Very easy.
Which sections?	Everyone answers Sections A, I, J and K and the User Acceptance page, plus the sections marked “Mainly for” your role. The SUS page is optional. You may skip the other sections.
Ticking	Tick one box in each row. On paper, mark it with a tick or a cross. On a computer, replace ☐ with ☑ (copy and paste the symbol).

Privacy: your name, position, and signature are used only to record this evaluation for the CAP-2521-IT capstone. These details are not shared outside the project team and the Graduate School (Data Privacy Act of 2012, RA 10173). Taking part is voluntary, and you may skip any question.
