Zoom Cheat Sheet - Migui

Meeting with the group and the Graduate School, 4 November 2026. Order: 1 Forms pack, 2 UAT instrument, 3 Demo parts, 4 Where the files are. Marked check = the sources do not settle it. Say it as open.

Part 1 - USLS Graduate School forms pack (46 documents)

- **What it is:** 44 forms (GS-F-01 to GS-F-44) plus 2 process documents: GS-P-01 Forms Approval Sheet and GS-P-02 Forms Routing Guide. One print pack, 82 pages, approval sheet first.
- **Why it was made:** the Graduate School has almost nothing written down besides the Handbook 2022-2023. The Research Protocol describes Forms 1 to 13 but holds no layouts. The group drafted one clean, consistent set that matches the Handbook, the Protocol and the web app's workflows. Every form has blank control fields: form code, revision no. (00), effectivity date.
- **How it was checked (3 Nov):** every rule sentence, citation, form number and title was read against the Handbook, the Protocol and the Operations Manual rules file. About 310 statements and 160 citations. Errors found were fixed. Rules that rest only on working practice are marked 'proposed practice' or 'to be confirmed', or left blank. The forms never state a fee, deadline or limit that the Handbook or Protocol does not state.
- **Honest line:** nothing was shown to the Graduate School before today. The readings are not confirmed with the Dean yet. If the Graduate School already has its own form, that form replaces ours and the GS-F number is retired.
- **GS-P-01 (the page the Dean signs):** lists all 44 forms. For each form the reviewer marks Approved or writes the change required. The signatures approve the forms at Revision 00 and fix the effectivity date. Reviewers: Research Coordinator, Associate Dean, five Academic Coordinators, Graduate School Secretary. Approver: the Dean.
- **GS-P-02 (read-only guide):** one row per form. It shows when the form is used, who submits, who reviews, who decides, where the form goes next, and which web-app step records the same event.

Code	Document	What it is for	Filled by	Signs / approves	Based on	Web-app process
Admission and enrollment						
GS-F-01	Onboarding Report for the Dean	Report on a batch of newly admitted students. The Dean accepts it or returns it.	Graduate School staff	Academic Coordinator reviews; Dean accepts	Ops Manual 4.1; Handbook pp. 42-47	Admission: Dean onboarding gate
GS-F-02	Academic Advising and Study Plan	Records the advising step before enrollment: subjects advised for the term.	Student; Academic Coordinator	Student; Academic Coordinator	Handbook pp. 47-48	Enrollment: study plan, Academic Coordinator review
GS-F-04	Term Course Offering Plan	Subjects to offer each term, with undersized (special) classes.	Academic Coordinator	Dean approves	Handbook pp. 48, 51	Course Adjustments: offering plan
Subject changes						
GS-F-03	Change or Add of Subject and Advice Slip	Change or add one subject in the first week of classes. Includes the Advice Slip.	Student	Academic Coordinator recommends; Associate Dean approves an added subject; GS Office issues the slip	Handbook pp. 48-49	Course Adjustments
GS-F-05	Application for Withdrawal of Subject	Withdraw subjects up to the second week; 10% / 20% charges.	Student	Academic Coordinator notes; Dean decides; Business Office assesses; Registrar processes	Handbook pp. 49-51, 53	Withdrawal: Dean Review, then Registrar
GS-F-06	Notice of Dropping from a Subject	Drop when unexcused absence is over 20% of class hours.	Professor	Academic Coordinator verifies; student informed; Dean notes	Handbook p. 52	Monitoring: drop with absence evidence
Leave, AWOL, readmission						
GS-F-07	Application for Leave of Absence	Written request to the Dean for leave (new or extension).	Student	Academic Coordinator reviews; Dean decides; Business Office notes fee; Registrar notified	Handbook pp. 48, 52-53, 55	Leave of Absence board

Code	Document	What it is for	Filled by	Signs / approves	Based on	Web-app process
GS-F-08	Application for Readmission (Return from Leave or AWOL)	Written intention to enroll after a leave or AWOL.	Student	Academic Coordinator evaluates; Business Office clears; Dean endorses to Registrar; Registrar receives	Handbook pp. 45, 53-55	Readmission board
GS-F-09	Notice of Absence Without Leave (AWOL)	Records AWOL status, with the source evidence.	Graduate School staff or Academic Coordinator	Dean notes	Handbook p. 53. Form is a proposal: Handbook gives no notice	AWOL case (AWOL Declared)
Residency and practicum						
GS-F-10	Application for Residency Enrollment	Enroll in residency (no subjects) for thesis, practicum, comprehensive exam, INC or publication.	Student	Academic Coordinator verifies; Dean or representative approves; Business Office	Handbook pp. 48, 54-55	Residency enrollment
GS-F-11	Practicum Agreement (Memorandum of Agreement)	Agreement between student, host organization and the University.	Student	Host supervisor and representative; Academic Coordinator; Dean for the University	Handbook p. 48. Proposed process	Practicum: MOA Received
GS-F-12	Practicum Hours Log and Supervisor's Certification	Daily hours log with supervisor certification.	Student; host supervisor	Host supervisor certifies	Ops Manual 4.17 (no Handbook page)	Practicum: hours and certificates
GS-F-13	Practicum Completion Report	Academic Coordinator reports verified hours to the Dean.	Academic Coordinator	Dean reviews (no approval or denial)	Ops Manual 4.17 (no Handbook page)	Practicum: Report Sent to Dean, Dean Reviewed
Comprehensive examination						
GS-F-14	Application for Comprehensive Examination	Apply for the exam. Withdrawal of application is on the form.	Student	Academic Coordinator or College Dean evaluates; Graduate Program Secretary receives	Handbook pp. 56-57	Comprehensive exam status
GS-F-15	Comprehensive Examination Result Sheet	Records the exam results.	Academic Coordinator	Graduate Program Secretary records; Dean notes	Handbook p. 57	Comprehensive exam: result recorded
Research: title, adviser, proposal						
GS-F-16	Application for Title Defense (Protocol Form 1)	Apply for the title defense.	Student	Academic Coordinator endorses; Research Coordinator receives	Protocol, Title Defense I; Handbook pp. 59-60	Research gate: Form 1 - Title Defense
GS-F-17	Panel Nomination and Invitation Reply Slip	Nominate a panel; nominees reply to the invitation.	Research Coordinator; nominees reply	Research Coordinator nominates; Associate Dean notes; Committee deliberates	Protocol, Title Defense I.4; Handbook pp. 60, 63. Reply slip proposed	Panel matching and panel invitations
GS-F-18	Report of Title Defense (Form 2)	Panel result of the title defense.	Panel Chair	Panel Chair and panel members	Protocol, Title Defense III; Handbook pp. 60-61	Title defense verdict
GS-F-19	Application for Designation of Research Adviser (Form 3)	Student asks for a Research Adviser.	Student	Academic Coordinator notes; Research Coordinator forwards; Research Coordinator, Associate Dean, Dean deliberate	Protocol, Designation I; Handbook pp. 58-59, 61	Adviser Appointments: Applied, Noted, Under deliberation
GS-F-20	Appointment for Research Adviser (Form 3.1)	Appoints the adviser. The adviser accepts or declines.	Research Coordinator	Research Coordinator, Associate Dean, Dean; adviser accepts	Protocol, Designation I; Handbook pp. 58-59, 61-62	Adviser Appointments: Appointed, Accepted
GS-F-21	Request for Change of Research Adviser (Form 3.1.1)	Change of adviser, once only, before the proposal defense.	Student	Current and new adviser agree; Research Coordinator, Associate Dean, Dean decide	Protocol, Change of Adviser; Handbook p. 62	Adviser Appointments: Change request
GS-F-22	Research Timetable (Form 3.2)	Research plan with dates, within 5 days of GS-F-20.	Student and adviser	Student; adviser; Research Coordinator receives	Protocol, Designation II; Handbook pp. 58-59, 61-62	Adviser Appointments: contract received
GS-F-23	Thesis / Dissertation Advising Contract (Form 3.3)	Advising contract between student and adviser, within 5 days of GS-F-20.	Student and adviser	Student; adviser; Research Coordinator receives	Protocol, Designation II; Handbook p. 59	Adviser Appointments: contract received
GS-F-24	Request for Change of Title of the Study (Form 3.4)	Change of title, once only, before the proposal defense application.	Student	Adviser endorses; panel decides; Panel Chair emails the decision	Protocol, Change of Title; Handbook p. 62	Not a separate step yet
GS-F-25	Statistical Consultation Form (Form 4.1)	Statistician's recommendations. For quantitative studies.	Statistician	Statistician; student receives; adviser notes	Protocol, Proposal Defense I; Handbook p. 63	Research gate: Form 4

Code	Document	What it is for	Filled by	Signs / approves	Based on	Web-app process
GS-F-26	Co-authorship Information for Publication (Form 4.2)	Pre-identified co-authors for publication.	Student	Student; co-authors; adviser; Panel Chair notes	Protocol, Proposal Defense I-II; Handbook p. 64	Not a separate step yet
Research: defenses and completion						
GS-F-27	Endorsement for Proposal / Final Defense (Form 4)	Adviser endorses the proposal or closed-door final defense; schedule recorded.	Research Adviser	Adviser endorses; student acknowledges; Research Coordinator receives	Protocol, Proposal Defense I, Final Defense I; Handbook pp. 63, 65-66	Research gate: Form 4; defense scheduling
GS-F-28	Request for Rescheduling or Cancellation of a Defense	Asks to move or cancel a confirmed defense.	Student, adviser, panel or GS Office	Adviser notes; Research Coordinator approves	Ops Manual 4.16; Handbook pp. 63-67. Proposed form	Defense scheduling: reschedule or cancel with reason
GS-F-29	Comments Sheet for Proposal Defense (Form 5)	Panel comments after the proposal defense.	Panel members	Panel Chair consolidates	Protocol, Proposal Defense II-III; Handbook pp. 63-65	Proposal defense verdict
GS-F-30	Technical Review Certificate (Form 5.1)	Technical review of the revised proposal.	Panel Chair	Panel members; adviser; Research Coordinator receives	Protocol, Proposal Defense III; Handbook pp. 64-65	Research gate: Form 5.1
GS-F-31	Application for Ethics Review (Form 5.2)	Apply for ethics review after the proposal defense.	Student	Adviser endorses; ethics committee decides	Protocol, Proposal Defense III; Handbook pp. 23, 65	Ethics clearance status and date
GS-F-32	Comments Sheet for Final Defense (Form 6)	Panel comments after closed-door and public final defense.	Panel members	Panel Chair consolidates; adviser records	Protocol, Final Defense II-IV; Handbook pp. 66-73	Final defense verdict
GS-F-33	Evaluation Sheet for Final Defense (Form 7)	Scores the closed-door final defense. Score below 85 (thesis) or 90 (dissertation) means provisional pass.	Panel members and adviser	Research Coordinator receives	Protocol, Final Defense II-IV; Handbook pp. 66-67, 76	Final defense verdict with Form 7 score
GS-F-34	Settlement of Provisional Thesis / Dissertation Approval (Form 8)	Confirms revisions after a provisional pass.	Student; adviser	Adviser certifies; Research Coordinator receives	Protocol, Final Defense II; Handbook p. 67	Verdict follow-up: revisions confirmed
GS-F-35	Endorsement for Public Final Defense (Form 4.3)	Adviser endorses the public final defense.	Research Adviser	Adviser endorses; student acknowledges; Research Coordinator approves schedule	Protocol, Public Defense I; Handbook pp. 70-73	Not modeled yet
GS-F-36	Similarity Index (Turnitin) Certification	Turnitin similarity certificate for the final manuscript.	Turnitin administrator	Turnitin administrator	Protocol, Final Defense III; Handbook p. 68. Form proposed	Completion Evidence: Turnitin certificate
GS-F-37	Editor Certification (Form 9)	Editor certifies the manuscript.	Editor	Editor	Protocol, Final Defense III; Handbook p. 68	Completion Evidence: Form 9
GS-F-38	Approval Sheet (Form 10)	Final approval of the bound thesis / dissertation.	GS Office	Dean accepts (panel and adviser review)	Protocol, Final Defense III; Handbook pp. 68, 77	Completion Evidence: Form 10
Publication						
GS-F-39	Formal Invitation to Co-Author Journal Article (Form 11)	Student invites a pre-identified co-author.	Student	Co-author replies; adviser notes	Handbook pp. 64, 75	Not modeled yet
GS-F-40	Publication Information Form (Form 12)	Approval to submit to a journal.	Student	Research Coordinator, Academic Coordinator, Associate Dean, external expert; Dean decides	Handbook p. 75	Not modeled yet
GS-F-41	Evidence of Publication or Acceptance (Form 13)	Proof that the article is accepted or published.	Student	Research Coordinator checks the evidence is present	Handbook pp. 75, 77. Form 13 is named only by number there	Not modeled yet
Graduation and records						
GS-F-42	Application for Graduation	Student applies in the review window of the graduating term.	Student	Academic Coordinator (coursework); Research Coordinator (research documents); Dean endorses or returns	Ops Manual 4.18; Handbook pp. 55-56, 68-69, 75-77, 80	Graduation: signed application, For Review
GS-F-43	Graduation Endorsement List	Batch list of checked candidates for the Dean.	Graduate School staff	Academic Coordinator; Research Coordinator; Dean approves	Ops Manual 4.18; Handbook pp. 32, 77	Graduation: Dean Approved, exported list

Code	Document	What it is for	Filled by	Signs / approves	Based on	Web-app process
GS-F-44	Records Transmittal to the University Registrar	Records sent to the Registrar, with acknowledgement.	Dean, Associate Dean or representative	Registrar acknowledges	Ops Manual 4.19; Handbook pp. 32, 49-50, 53. Proposed	Registrar status and handoff log
Process documents (control of forms)						
GS-P-01	Graduate School Forms Approval Sheet	The page that approves all 44 forms and fixes the effectivity date.	Capstone group	Reviewers (see above); Dean approves	Inventory (00-INVENTORY.md)	-
GS-P-02	Forms Routing Guide	Who files, reviews, decides and where each form goes next.	Read-only guide	-	Ops Manual chapters 2 and 4	Maps each form to its web-app step

Open questions for the Graduate School (numbers match 00-INVENTORY.md)

#	Question
1	Do you hold the official Word/PDF for Protocol Forms 1-13, the Withdrawal Form, the comprehensive exam application and the Advice Slip? If yes, yours replace ours.
2	Is the code style GS-F-XX / GS-P-XX acceptable? Who sets the effectivity date and revision numbers?
3	Withdrawal: the Handbook says until the second week (10% / 20%). The Associate Dean said before classes or in the first week. Which applies? What does a withdrawal before the first day cost?
4	Dropping: who drops a subject, the professor (Handbook) or the Academic Coordinator? Is a documented reason other than absences allowed? Does DRP 5.0 drop the student from the program?
5	Leave: filing deadline, start term, fee. Does leave count in maximum residence (Handbook says yes)? May a structured form replace the letter to the Dean?
6	Readmission and AWOL: who declares AWOL? Is a written notice sent (GS-F-09 is a proposal)? Who records the returnee interview? May a student with a failed subject be readmitted?
7	Residency: fee, deadline within the semester, number of semesters allowed, who approves.
8	Comprehensive exam: before or after the adviser appointment and title defense? Who evaluates doctorate students (Handbook: College Dean)? Is 7.00 the pass mark per course out of 10.00?
9	Adviser: who approves (Dean alone, or with Associate Dean and Research Coordinator)? Do students nominate three faculty? Who approves an external panel member? Is there a cap on panel service?
10	Form 7 uses the Handbook p. 76 rubric (15, 40, 15, 30 points) and the 85 / 90 thresholds of p. 67. Is that the intended rubric? Does it apply to a project paper?
11	Public final defense: apply five days or two weeks before? 30 or 60 minutes? Which admission date decides between public defense and the research-conference track?
12	Defense fees and honoraria: the Protocol fee tables are empty, so the forms state no amounts.
13	Ethics review: does the ethics committee have its own application and clearance forms? GS-F-31 is a general draft.
14	Turnitin certificate: who issues it and in what form? (GS-F-36 is proposed.)
15	Publication: who is the external expert? Does the Scopus / Web of Science / ISI requirement apply to every program from AY 2022-2023? What happens when a student cannot publish in time?
16	Practicum: which programs? How many hours (the platform default of 200 is the group's assumption; forms leave it blank)? Who signs for the University? Does University counsel review the agreement? May a Psychology student do it before the comprehensive exam?
17	Graduation: review window, deadline, late applicants, document checklist. Registrar acknowledgement and file formats.
18	Is the 'Graduate School Secretary' on GS-P-01 the same person as the Handbook's 'Graduate Program Secretary'? Are the mailboxes on the forms current?
19	Adviser rules differ. Handbook p. 58: doctoral degree and one refereed publication; five advisees per semester (p. 59). Protocol: PhD for PhD students, PhD units for MA students; five active advisees per academic year. GS-F-19 states both. Which governs?
20	Project paper: the Protocol gives no provisional-pass score. GS-F-32 and GS-F-33 leave a blank.
21	Proposal defense outcomes on GS-F-29: Passed, Passed with minor revisions, Major revisions. Are those the right outcomes?
22	Mixed-methods studies and Form 4.1: the Protocol is silent. GS-F-25 offers only quantitative or qualitative.
23	Readmission: GS-F-08 adds three platform checks (updated study plan, adviser consultation, no pending accountability), marked as not Handbook requirements. Keep or strike?
24	AWOL: the Handbook does not say it is reported to the Registrar. Is the Registrar informed, and by which form?
25	Rescheduling a defense (GS-F-28): is a new date subject to the two-week endorsement and 14-Day Rule lead times? Who may ask?
26	Is 'Endorsement for Public Final Defense' (Form 4.3) the official title? Handbook and Protocol word it differently.
27	Ethics committee mailbox: Protocol gives rerc@usls.edu.ph, the Handbook another address. The forms use the Protocol's.
28	Practicum Agreement wording is the group's draft, not University text. Who reviews it?
+	Also open: waiver of the two-week rules, time limits and what follows when exceeded, whether weekends and holidays count in lead times.

Part 2 - UAT instrument (User Acceptance Testing form)

- **What it measures:** whether the demonstrated system supports the real monitoring and coordination needs of the Graduate School. Each evaluator judges only what was seen or done. All records are sample data.
- **Who tests:** Graduate School staff, Academic Coordinator, Research Coordinator, Dean, Faculty (adviser or panel), Student, Other. The form records the role tested and whether the evaluator watched, used the system, or both.
- **Who answers what:** everyone answers Sections A, I, J and K and the User Acceptance page. Every other section carries a 'Mainly for' line. The SUS page is optional. Taking part is voluntary and any question may be skipped.
- **Size:** 98 matrix questions (A-J), 10 optional SUS items, 8 process-validation questions (K), then a three-option acceptance and signature block. Revised file: 12 pages, US Letter.

Section	Topic	Qs	Mainly for
A	Overall system and process representation	7	Everyone
B	Student records, course monitoring, enrollment	14	Graduate School staff, Academic Coordinator
C	Standing changes and exception cases (withdrawal, dropping, leave, readmission, AWOL, residency)	8	Staff, Dean, Academic Coordinator, student
D	Research Gate	9	Staff, Research Coordinator, Academic Coordinator, adviser, student
E	Panel matching	8	Staff, Research Coordinator, faculty
F	Defense scheduling and defense outcome	14	Staff, Research Coordinator, panel faculty, student
G	Practicum and graduation	8	Staff, Academic Coordinator, Research Coordinator, Dean, student
H	Policy Assistant, rules, reports and analytics	13	Everyone (assistant); staff, Dean, coordinators (reports)
I	User interface and ease of use	7	Everyone
J	Access, reliability, system behavior	7	Everyone
SUS	System Usability Scale, optional	10	Anyone who used the system personally
K	Process validation and possible errors	8	Anyone who knows the real process

- **Scales:** Yes / No / N/A on every row. In A-J, Yes always means good. 7 rating rows (A7, B14, D9, E8, F14, H13, I7) use 1-5 with the words printed on the row (for example 1 = Not useful, 3 = Acceptable, 5 = Very useful), plus N/A. Section K is the one reversed part: Yes means a problem was found. It is labelled on the page. SUS is 1-5, Strongly disagree to Strongly agree.
- **Acceptance:** each evaluator ticks one of Accepted, Accepted with minor revisions, Requires major revisions, and gives a reason and the most important changes needed.
- **Scoring Yes/No sections:** every answer traces to one question ID (A1, B3 ...), so the team can tally No answers per question and read the Comments. The notes give no pass percentage: check with the adviser before quoting one.
- **Scoring SUS (team use, not on the form):** odd items score = answer minus 1. Even items score = 5 minus answer. Add the ten scores and multiply by 2.5. Result is 0-100 per evaluator. Average over evaluators. About 68 is the average over many studies. A blank or middle answer counts as 3. Do not read single items alone. With few evaluators, report each score and the range, not only the mean.

Main changes from the draft, and the standard behind each

Change	Why	Standard / source
Evaluator block added (name, office, role tested, watched or used, date). 'Project created' blank became 'Version tested: demonstration build, sample data only'.	Results mean something only if the team knows who tested what and in which context.	ISO 9241-11 (specified users, specified context of use); ISO/IEC/IEEE 29119-3 test documentation
N/A added on every row. Intro says 'see or perform' and 'only judge what you saw or did'.	Some evaluators only watch. Evaluators need a valid answer for features not shown.	CASRAI questionnaire design (N/A option)

Change	Why	Standard / source
Rating anchors printed on every rating row.	The draft explained the scale only in the intro. The 'useful' rows used 'Very Poor' words.	TASO Likert guidance (label every point, 5 points); CASRAI
Double-barreled questions split to one idea each (for example Access 4 became J4 and J5; Panel and Research items split).	One question, one answer. The draft Access 4 also had Yes = bad while all others had Yes = good.	Pew Research (double-barreled); CASRAI (consistent scale direction)
Draft 'imported data is read-only, not edited in the portal' replaced by B3-B6.	Out of date and leading. Staff can now add and correct records with source, who, when and reason. AIMS values are never silently overwritten. No grades in the portal.	ISO/IEC 25010:2023 security (integrity, accountability); neutral wording
New questions for features the draft never asked about: hard stops and the 14-day warning, calendars, Registrar file hand-off, Business Rules register, policy document library, no e-mail notifications, 'Not Yet Assessed' risk, boards behave alike, clear reason when an action is stopped.	Each is a main feature or design decision shown in the demo.	ISO/IEC 25010:2023 (user error protection, self-descriptiveness); team decisions
Draft Policy questions 5 and 6 were word for word the same. Merged into H10 and H11.	Duplicate.	-
Format: Arial, 12 pt body, 11 pt matrix, bigger section headings, numbered sections, tick boxes, repeated header rows, wider margins, footer with page X of Y.	Easier to read and print. Section headings are real Word headings.	Plain English Campaign forms guide; NZ MSD plain-language checklist; Irish CEUD form design
Optional SUS page added.	One validated number, comparable with the benchmark of about 68. Covers satisfaction, which Yes/No rows do not.	Brooke 1996 (SUS); MeasuringU; ISO 9241-11 satisfaction

Quality model behind the sections: A-H = functional suitability. I (and A7) = interaction capability (usability). B4, B5, J1, J2 = security. J3-J5 = reliability. J6 = performance efficiency. Not asked, because office staff cannot judge these characteristics: compatibility, maintainability, flexibility, safety.

Likely questions about the UAT

Q: Why ISO/IEC 25010 and ISO 9241-11?

A: 25010 is a quality model of nine characteristics. A UAT with office staff can judge only some characteristics. 9241-11 defines usability as effectiveness, efficiency and satisfaction for specified users in a specified context. That is why the form records role and sample-data context. The notes found no CHED or USLS rule that requires ISO 25010. If the panel asks, check the school's thesis manual.

Q: Why add SUS?

A: It is ten items on one page, validated, and gives one number. It stays optional because SUS is meant for people who used the system, not only watched.

Q: Why mostly Yes/No and not only 1-5?

A: It is a short acceptance check. The draft used Yes/No and the team kept it. Seven rating rows give a degree of usefulness or ease.

Q: Why is Section K reversed?

A: K is a problem-finder, so Yes means a problem. It sits on its own page with a bold label and a 'Problem found?' column, so nobody ticks the wrong box.

Q: How long does it take?

A: Each evaluator answers A, I, J and own sections: about 50-65 questions. The time was not measured; a dry run is needed. Check.

Q: Are the policy numbers in the questions right?

A: Withdrawal window (C2) and 10% / 20% fee (C3): Handbook pp. 49, 51. 20% absence (C4): p. 52. Scores 85 / 90 (F13): p. 67. The 14-day lead time (F5) came from the walkthrough and rules register. Check against the Handbook.

Q: Who sees the answers?

A: The form says names and signatures are used only for the CAP-2521-IT capstone and shared only with the project team and the Graduate School (Data Privacy Act, RA 10173). The wording is the team's own. Check it with the adviser or the Graduate School.

Q: Does a good result prove the system works?

A: No. It records acceptance of a demonstration build with sample data. Evaluators judge only what was shown.

Part 3 - Walkthrough of my demo parts

Demo accounts: all use the same demo password. The sign-in page lists the accounts. Demo students: loa.daniel@usls.edu.ph (leave), readmission.therese@usls.edu.ph (readmission), awol.maya@usls.edu.ph (AWOL). Staff: staff@usls.edu.ph. Dean: dean@usls.edu.ph. If a drag and drop fails, use 'Move to...' on the card. It is the same step with the same rules. Videos are on this PC only.

2d - Monitoring Sheet (8 min) - video 2d-Monitoring-Sheet.mp4 (about 4:30)

One line: the curriculum grid the office kept in Excel is now kept on screen. Every entry shows where it came from.

- **Steps:** sign in as staff. Records > Monitoring Sheet. Pick MSN. Add student (ID, names, AY entry 26-27). 'Add subjects now'. Add MSN-FED and MSN-MOR as Completed. Edit a remark. Remove MSN-MOR with a reason. Change history tab. Back on the grid: the Manual tag and the orange dot. Open the imported student Katrina Cabrera: editing an imported value needs a reason.
- **Rule behind it:** no Handbook page. It is a project rule. Official student, enrollment and grade data come only from the AIMS import and cannot be edited. Manual entries are allowed but stamped with source, who, when and reason. A later workbook that disagrees with a portal value is held for review, not overwritten.
- **Say:** removing a row does not erase it. The row goes back to 'not taken' and stays in the history. Adding a student creates a Student Portal login.

Q: Why not keep the Excel file?

A: Excel cannot show who changed a cell, when or why. Here there is one record, every change is audited, and the same data feeds Enrollment, Reports and the student's own view. Workbook upload still works.

Q: Can staff change official data by mistake?

A: Not silently. An imported value needs a written reason. The change is logged with the name of the staff member. Grades and official enrollment cannot be edited at all.

2h - Leave of Absence, Readmission, AWOL (8 + 6 + 6 min)

One line: three standing changes on one kind of board. Columns are stages, cards are requests, the request window shows the policy check, and the Registrar list is the hand-off.

Part / video	Steps on screen	Rule behind it (Handbook)
Leave of Absence **2h-1-Leave-of-Absence.mp4** **(about 6:37)** **Student Daniel Fernandez**	Student: Requests > Leave of Absence. Picks start and end (two semesters), reason, explanation. Checks the summary. Sends. Staff: Leave of Absence board. Drag Submitted to In staff review. Table / Board switch. Open request. Read the policy check. Forward to the Dean with a note. Card shows 'Waiting for: Dean' and is locked for staff. Dean: drag to Leave scheduled. Approve with a note (or return for revision / deny, both with a comment). Staff: drag to On leave. Registrar list: download CSV, tick, mark as sent. The portal sends no e-mail.	p. 52: written request to the Dean, with reason and period. Leave approved for one year, renewed at most one more year. Portal shows: two semesters at a time, renewable once, four in total. p. 53: no leave within two weeks before the last day of classes. p. 55 (as GS-F-07 cites it): leave counts in maximum residence. Policy check is advice only. 'Minimum residency' reads Needs review (prototype rule). Only the Dean decides.

Part / video	Steps on screen	Rule behind it (Handbook)
Readmission **2h-2-Readmission.mp4** **(about 4:28)** **Student Therese Lacson, on approved leave**	Student: Requests > Readmission. The leave being ended is filled in. Picks return semester, writes why ready, ticks four checklist items. Sends. Staff: Readmission board. Drag to In staff review. Open request: return semester, linked leave, checklist 'not verified by staff yet', history (two of four leave semesters used). Policy check: return before the leave ends needs the Dean (Needs review). Forward, ticking the items verified. Unticked items reach the Dean as Needs review. Dean: drag to Approved. The student is active again. The Academic Coordinator plans subjects next. Readmission does not enroll.	p. 53: a returning student declares the intention to enroll in writing to the Registrar through the Dean. The rules panel shows this one rule, 'enforced by the system'. p. 45: returnee presents Business Office clearance, interview, evaluation of subject and grade requirements, Advice Slip from the Dean. p. 54: failure in any subject means no readmission. Note: the portal's four checklist items are not the Handbook's four requirements (open question 23).
AWOL and Return from AWOL **2h-3-AWOL-and-Return-from-AWOL.mp4** **(about 5:08)** **Student Maya Torres**	Nobody types 'AWOL'. The system flags the student from records. Staff: AWOL & Residency board. Maya's card is in AWOL, 'Waiting for: Student'. Staff cannot move it. Rules panel: residence limits. Student: Requests > Return from AWOL. Return semester, last enrolled semester, written intention, reason. Sends. Classified 'Within Maximum Residence'. Staff: card moved to Return review by itself. Policy check: Eligible for Dean Review. Drag to With the Dean with a note. Dean: drag to Back in the program. The Registrar list holds one report per approved return.	p. 53: leaving without a formal leave is AWOL. Registration privileges are curtailed or entirely withdrawn. pp. 54-55: maximum residence. Master's: 5 years normal, 7 absolute (two-year extension with a graded six-unit refresher). Doctorate: 7 and 9. Leave counts in residence. Handbook does not say AWOL is reported to the Registrar (open question 24).

Q: Why does the portal not e-mail the Registrar?

A: On purpose. The portal prepares the list. Graduate School staff send it through the official channel, then mark it sent and acknowledged. There is always a record of what was handed over.

Q: Can staff approve a leave?

A: No. Graduate School staff review and forward. The card locks for staff once the Dean has it. The server refuses any move the rules do not allow, even by drag and drop.

Q: What does 'Needs review' mean?

A: A prototype rule value that the Graduate School still has to confirm. The portal shows it honestly. The Dean decides.

Q: Is the paper leave letter still needed?

A: The Handbook asks for a written request to the Dean (p. 52). The portal form is a structured written request. Whether the Dean accepts it in place of a letter is open question 5. The forms pack has the paper version GS-F-07.

Q: What if a student is flagged AWOL by mistake?

A: The flag comes from an imported standing or the semester records. The fix is to correct the source record. Staff cannot type the flag by hand, so no student is flagged by accident.

2l - Reports & Analytics (6 min) - video 2l-Reports-Analytics.mp4 (about 4:19)

One line: what the Graduate School knows about all students at once. Every number is computed from recorded events, not typed in, and every count opens the students behind it.

- **Steps:** sign in as staff. Overview > Reports & Analytics. Filters: program, entry cohort, period (default last 12 months). Strip of six numbers (for example Behind schedule, Median days to decide). Needs attention tab: select a cause to narrow the list, 'Show all causes', download Excel or PDF. Where students get stuck (on time, slow, stuck). Office speed. Records to fix. Older lists: Cohorts by stage, Graduation candidates, Overdue and pending, Defenses. Registrar changes (daily list). Pick one program: every number follows.
- **Rule behind it:** no Handbook page. These are measurements of the records. Targets and day limits are starting values for discussion, not Graduate School policy. Risk reads 'Not Yet Assessed' until the Graduate School confirms its risk rules. The portal never invents High, Medium or Low.
- **Careful:** the written walkthrough (Case 20) still describes the older seven-tab layout. The video and narration show the new page. Read figures off the screen.

Q: Where do the targets come from?

A: The targets are starting values. The Graduate School should set its own targets. Changing a target is a setting. Check the exact values on screen before quoting any.

Q: Is the data real?

A: No. The demo site holds sample data (made-up students). No real student data is stored.

Q: Can this feed CHED or university reports?

A: Every table downloads as Excel or PDF with the current filters. If a fixed report format exists, the Graduate School can give the template and the team can match it.

2m - Best Features (closing, about 2 min, no video)

One line: five features, then the common thread. Say it over the closing slide. The full text is at the end of NARRATION-SCRIPT.docx.

- **1 Rules with a source:** one register, each rule with Handbook or Protocol page and a label: Enforced by the system, Documented only, or Needs review. A refusal quotes the rule.
- 2 Policy library and an assistant that cites its source: answers only from the Graduate School's documents, names the document and page, says so when the documents do not cover a question. Today it runs offline (Gemini errors on 4 Nov), so the label reads 'Offline answer'.
- **3 Panel matching that explains itself:** score out of 100 = topic similarity 60 + availability 25 + workload 15. The breakdown is on screen. The student's own adviser is never offered. A person chooses the panel.
- **4 Scheduling that checks before it books:** hard stops (double-booked panelist or room, declined invitation, slot in the past) and warnings that can be overridden with a recorded reason. Calendars for every role.
- 5 Shared boards and reports computed from records: leave, readmission, AWOL, withdrawal, practicum and graduation run on the same boards. Every move is recorded.
- **Common thread:** each feature takes data the Graduate School already has, plus the policy that governs it, and produces a decision, a warning or a measurement.
- **Honest limits:** no e-mail from the portal. Google Calendar is optional. Official data comes only from AIMS. Rules marked Needs review wait for Graduate School validation.

Q: Is the 60 / 25 / 15 weighting policy?

A: No. It is a design choice. The UAT form asks evaluators (E3) whether it is sensible. The Graduate School should confirm it.

Q: Does the assistant ever guess?

A: It is decision support, not an official ruling. It shows the passage used, and says so when the library has no answer.

Where every file is
