

UNIVERSITY OF ST. LA SALLE GRADUATE SCHOOL

CONCEPT PAPER

Title: The Effects of Technology on Students

Author: Maria Santos Master of Arts in Education

Date Submitted: June 2026

1. Background of the Study

Technology has become an important part of education today. Many students use laptops, mobile phones, and the internet to complete their schoolwork. Because of this, technology has changed how students learn.

Many schools also use online platforms and digital resources. This study wants to know how technology affects students.

2. Statement of the Problem

This study aims to answer the following:

1. Does technology help students?
2. Is technology important?
3. Are students happy using technology?

3. Significance of the Study

This study may help students and teachers.

4. Scope and Delimitation

The study focuses on students in one university.

5. Proposed Methodology

- Research Design: Survey
- Participants: Students
- Sampling: Random sampling

- Instrument: Questionnaire
